Question - 2:

What is the origin of sociology?

Ans:

The word sociology (or sociologie) is derived from the Latin: socius, "companion"; -ology, "the study of", and Greek λόγος, lógos, "word", "knowledge". It was first coined in 1780 by the French essayist Emmanuel Joseph Sieyès (1748?1836) in an unpublished manuscript. Sociology was later developed by the philosopher, Auguste Comte (1798?1857), in 1838.

Question - 3:

Tell me What are the various uses for break-even analysis?

Ans:

Such analysis allows the firm to determine at what level of operations it will break even (earn zero profit) and to explore the relationship between volume, costs, and profits. It helps the management that at current costs of products how many numbers of units must be sold to recover the cost of producing the product.

For Example: If you spend, \$200 on producing a product and selling price is \$20 then you must sale 10 units to recover the cost of product.

It also helps the management to determine how much of units to be sold to get desired profit on product. For example: if in the above example you want to earn \$20 profit then add it to it's cost of \$200 and it will become \$220 now you need to earn profit of this \$20 you need to sale 11 items of product.

Question - 11:

What is Positivism?

Ans:

The methodological approach toward sociology by early theorists was to treat the discipline in broadly the same manner as natural science. An emphasis on empiricism and the scientific method was sought to provide an incontestable foundation for any sociological claims or findings, and to distinguish sociology from less empirical fields such as philosophy. This perspective, is called as positivism.
