Network engineers Interview Questions And Answers Guide.

Question - 1:

Top 13 Situational Interview Questions As Network engineers:

Ans:

Situational interviews As Network engineers are similar to behavioral interview questions - but they are focused on the future, and ask hypothetical questions, whereas behavioral interview questions look at the past.

The advantage is that employers can put all candidates in the same hypothetical situations, and compare their answers.

1. What would you do if you made a strong recommendation in a meeting, but your colleagues decided against it?
2. How you would handle it if your team resisted a new idea or policy you introduced?
3. How would you handle it if the priorities for a project you were working on were suddenly changed?
4. What would you do if the work of an employee you managed didn't meet expectations?
5. What would you do if an important task was not up to standard, but the deadline to complete it had passed?
6. What steps would you take to make an important decision on the job As Network engineers?
7. How would you handle a colleague you were unable to form a positive relationship with?
8. What would you do if you disagreed with the way a manager wanted you to handle a problem?
9. What would you do if you were assigned to work with a difficult client As Network engineers?
10. What would you do if you worked hard on a solution to a problem, and your solution was criticized by your team?
11. How would you handle working closely with a colleague who was very different from you?
12. You're working on a key project that you can't complete, because you're waiting on work from a colleague. What do you do?
13. You realize that an early mistake in a project is going to put you behind deadline. What do you do?

Question - 2:

If you had enough money to retire would you?

Ans:

Just be honest. If you would retire then say so. But since you can't retire, and the interviewer already knows this, simply answer that since you can't this is type of work you prefer doing. However, if you wouldn't retire if you had the money then explain why. Work is an important element of happiness for most people and many won't retire even when they can.

Question - 3:

Explain me what do you know about our company?

Ans:

Bad Answer: They don't know much about the company. If a candidate is serious and enthusiastic, they should have done some basic research.

Good answer: An answer that shows they've really done their homework and know what the company does, any important current events that involve the company, and the work culture.

[View All Answers](#)

Question - 4:

Have you ever been caught stealing, or better yet, have you ever stole anything?

Ans:

I guess everyone takes a pen or paper or little things like that. But other than that, NO. I have never stole from my employers or better yet As Network engineers, from anyone.

Question - 5:

Basic 15 Interview Questions that Test Communication Skills As Network engineers:

Ans:

For most jobs, communication skills As Network engineers are important. It's hard to work as a team if people aren't communicating well. At some jobs, like customer service or sales, communication skills are an absolute essential.

These questions are meant to help gauge a candidate's ability to communicate.

1. How do you prefer to build rapport with others?
2. How would you go about simplifying a complex issue in order to explain it to a client or colleague?
3. How would you go about persuading someone to see things your way at work?
4. How would you go about explaining a complex idea/problem to a client who was already frustrated?
5. What would you do if you there was a breakdown in communication at work?
6. Talk about a successful presentation you gave and why you think it did well.
7. How would you explain a complicated technical problem to a colleague with less technical understanding?
8. Do you prefer written or verbal communication As Network engineers?
9. Describe a time when you had to be careful talking about sensitive information. How did you do it?
10. What would you do if you misunderstood an important communication on the job?
11. Talk about a time when you made a point that you knew your colleagues would be resistant to.
12. Is it more important to be a good listener or a good communicator As Network engineers?
13. Tell me about a time you had to relay bad news to a client or colleague.
14. Rate your communication skills on a scale of 1 to 10. Give examples of experiences that demonstrate the rating is accurate.
15. How have you handled working under someone you felt was not good at communicating?

Question - 6:

Can you explain why you changed career paths As Network engineers?

Ans:

Don't be thrown off by this question-just take a deep breath and explain to the hiring manager why you've made the career decisions As Network engineers you have. More importantly, give a few examples of how your past experience is transferable to the new role. This doesn't have to be a direct connection; in fact, it's often more impressive when a candidate can make seemingly irrelevant experience seem very relevant to the role.

Question - 7:

How do you evaluate success As Network engineers?

Ans:

I evaluate success As Network engineers in different ways. At work, it is meeting the goals set by my supervisors and my fellow workers. It is my understanding, from talking to other employees, that the Global Guideline company is recognized for not only rewarding success but giving employees opportunity to grow as well.

[View All Answers](#)

Question - 8:

What makes you right for this position?

Ans:

This question can be tricky because you need to show your worth As Network engineers without sounding cocky or arrogant. Research the business ahead of time and become familiar with its mission and values. Take the time to figure out how your personal qualities fit the needs of the business and use that fit to provide your answer.

[View All Answers](#)

Question - 9:

What five words would describe you as Network engineers?

Ans:

The hiring manager requests this of you because she wants to know more about your individual personality. This list can reveal a lot to her about who you are and how you might fit into the workplace. Your answer also gives the manager an indication of your self-perception, which is a good indicator of the type of employee you will be.

[View All Answers](#)

Question - 10:

Tell us something about yourself?

Ans:

Bad Answer: Candidates who ramble on about themselves without regard for information that will actually help the interviewer make a decision, or candidates who actually provide information showing they are unfit for the job.

Good answer: An answer that gives the interviewer a glimpse of the candidate's personality, without veering away from providing information that relates to the job. Answers should be positive, and not generic.

[View All Answers](#)

Question - 11:

Why do you think you'll do well at this job?

Ans:

Provide several reasons including skills, experience and interest. If you can show how you've been successful in a similar career field or job position that will go along way to helping the interviewer believe you'll also be successful at this new job.

[View All Answers](#)

Question - 12:

Tell me about a time when you had to give someone difficult feedback As Network engineers?

Ans:

By asking this question, your interviewer hopes to learn whether you can communicate effectively, address issues in the workplace and motivate others during difficult times. Giving negative feedback requires honesty, thoughtfulness and tact. Answering this question well can help show an interviewer that you would be a good fit for a managerial position or a position that involves working closely with others.

[View All Answers](#)

Question - 13:

What did you like least about your last (or current) job As Network engineers?

Ans:

Don't vent or focus on the negative with brutally honest answers such as "My boss was a jerk," or "The company culture was too politically correct," or "They just weren't giving me the opportunity to take my career to the next level." Instead, keep the emphasis on the positive, even though there are sure to be things you weren't happy about.

[View All Answers](#)

Question - 14:

Describe your management style?

Ans:

Try to avoid specific classifications, whatever it may be. Organizations usually prefer managers who can adapt their skills to different situations.

Question - 15:

Top 12 Best Brainteaser Interview Questions:

Ans:

Brainteaser questions As Network engineers have become popular for interviews in recent years, as word has gotten out that top tech companies such as Apple, Google, Microsoft and IBM have used this type of question at one time or another.

Companies like Google aren't using these questions so much any more, but many companies, are, and it may be good to prepare for them As Network engineers. The key to these isn't so much getting the exact answer, as it is showing how you would come up with an answer.

Here's a sample of 12 of the best and most difficult.

1. How many street lights are there in New York City?
2. How many gas stations are there in the United States?
3. How many golf balls can fit in a school bus?
4. How much should you charge to wash all the windows in Seattle?
5. Why are manhole covers round?
6. How many times a day does a clock's hands overlap?
7. How would you test a calculator?
8. Describe the internet to someone who just woke up from a 30-year coma.
9. How much does the Starbucks in Times Square bring in, in annual revenue?
10. You are shrunk to the height of a nickel and thrown into a blender. Your mass is reduced so that your density is the same as usual. The blades start moving in 60 seconds. What do you do?
11. What is the air speed velocity of an unladen swallow? ;)
12. How many golf balls are there in Florida?

[View All Answers](#)

Question - 16:

When were you most satisfied in your job As Network engineers?

Ans:

I'm a people person. I was always happiest and most satisfied when I was interacting with community residents, making sure I was able to meet their needs and giving them the best possible comfort in a tough situation. It was my favorite part of the job, and it showed. Part of the reason I'm interested in this job is that I know I'd have even more interaction with the public, on an even more critical level.

[View All Answers](#)

Question - 17:

How do you think you might fit this position As Network engineers?

Ans:

An important part of research before the interview is what the company does and how the job role relates to that. This includes the company philosophy and working methods. Questions such as this seek to find out how a candidate will fit into the organisation As Network engineers. Answer positively; including practical examples of how you anticipate you would perform in the new role.

[View All Answers](#)

Question - 18:

Top 12 Stress Based Interview Questions As Network engineers:

Ans:

Some jobs require employees to work under stress, and some interviewers just like to see how applicants handle stressful questions.

There are many questions designed for putting the interviewee into an awkward situation, or throwing them off, to see how they do under stress. Here are some samples.

1. How do you feel this interview is going As Network engineers?
2. How would you handle undeserved criticism from a superior?
3. How many other jobs are you applying for?

4. What would you do if you saw a colleague stealing supplies or equipment?
5. What did you do when you had a boss you didn't get along with?
6. What would you do if a colleague took credit for your idea, and got a promotion?
7. Was the stress of your previous job too much for you?
8. What would you do if a colleague admitted to lying on their resume to get the job?
9. What would you do if a customer verbally insulted you in front of co-workers?
10. What would you change about the design of a baseball hat?
11. Why were you fired from your previous job As Network engineers?
12. How successful do you think you've been so far?

[View All Answers](#)

Question - 19:

How do you stay organized?

Ans:

By maintaining proper routine every day. Putting my strongest points with my weakness. High priority always comes first As Network engineers.

[View All Answers](#)

Question - 20:

Are you currently looking at other job opportunities?

Ans:

Just answer this question honestly. Sometime an employer wants to know if there are other companies you're considering so that they can determine how serious you are about the industry, they're company and find out if you're in demand. Don't spend a lot of time on this question; just try to stay focused on the job you're interviewing for.

[View All Answers](#)

Question - 21:

How do you think your colleagues at your last job would describe you?

Ans:

While your CV will say a lot about your work history As Network engineers, the interviewer will most likely look for greater detail with questions such as this. Be positive about previous experience, highlighting your own strengths.

[View All Answers](#)

Question - 22:

Top 11 Questions to Verify Experience and Credentials As Network engineers:

Ans:

Sometimes people want a job a little too bad - and they may fudge their credentials and experience a bit.

If you've run into this problem, are worried about it, or have credentials and experience that are absolutely essential, you may need to ask a few verification questions.

If you are a candidate, you should review your resume and make sure you know all the key points, and that nothing has been misconstrued.

1. What grades did you get in college?
2. What were your responsibilities when you worked in job x?
3. How many people were on your team at your last job?
4. What will your previous manager/supervisor say when I ask where you needed to improve?
5. What was your beginning and ending salary at job x?
6. What were your beginning and ending titles at job x?
7. Are you eligible for rehire at job x?
8. What tools are necessary for performing job x?
9. Describe to me how you would perform [x typical job task].
10. What was the focus of your thesis?
11. When did you leave company x?

[View All Answers](#)

Question - 23:

What is the most irritating thing you've experienced about your co-workers?

Ans:

This question is designed to find out if you get along well on team, with other and whether or not you'll be a fit with the interviewer's organization. It's a trap. Think real hard but fail to come up anything that irritated you about your co-workers. A short positive response is best.

[View All Answers](#)

Question - 24:

What motivates you to succeed?

Ans:

Your interviewer will likely want to know the reasons why you will remain motivated to do your best during your employment with the company As Network engineers. Perhaps you are interested in being challenged, but you may also have interest in being recognized for your hard work in the form of the number of sales you can attain. A great example answer for this question is "I always do my best in everything, including my job. I take pride in my success, and I also want the company for which I work to be successful. Being affiliated with a company that is known for its excellence is very important to me."

[View All Answers](#)

Question - 25:

What are your salary requirements As Network engineers?

Ans:

The #1 rule of answering this question is doing your research on what you should be paid by using site like Global Guideline. You'll likely come up with a range, and we recommend stating the highest number in that range that applies, based on your experience, education, and skills. Then, make sure the hiring manager knows that you're flexible. You're communicating that you know your skills are valuable, but that you want the job and are willing to negotiate.

[View All Answers](#)

Question - 26:

How would you estimate the weight of the Chrysler building?

Ans:

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

[View All Answers](#)

Question - 27:

What does success mean to you?

Ans:

I am punctual, I always have excellent attendance on any job As Network engineers, I have a keen eye for both large and small details, and I am always finding ways to improve a process and shorten the length of time it takes to complete a project.

[View All Answers](#)

Question - 28:

How would you be an asset to us As Network engineers?

Ans:

Think again about the job specification and the skills needed for this role As Network engineers. Have a paragraph prepared highlighting how you will be able to do the job and what you can bring to the team. It goes without saying that this paragraph should be positive.

[View All Answers](#)

Question - 29:

Explain me about a challenge or conflict you've faced at work As Network engineers, and how you dealt with it?

Ans:

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[View All Answers](#)

Question - 30:

What do you already know about our company?

Ans:

Good reputation of a large home grown company that has various departments and product.

[View All Answers](#)

Question - 31:

How many tennis balls can you fit into a limousine? 1,000? 10,000? 100,000? Seriously?

Ans:

Well, seriously, you might get asked brainteaser questions like these, especially in quantitative jobs. But remember that the interviewer doesn't necessarily want an exact number-he wants to make sure that you understand what's being asked of you, and that you can set into motion a systematic and logical way to respond. So, just take a deep breath, and start thinking through the math. (Yes, it's OK to ask for a pen and paper!)

[View All Answers](#)

Question - 32:

If hired, how do you intend on making a difference with our company?

Ans:

Dedicate myself to learn everything about the new company that I can, look for ways and ideas that could improve, processes, safety, removing obstacles from the associates, I want to advance within the company.

[View All Answers](#)

Question - 33:

What makes a product successful?

Ans:

Basing on the monetization, these questions give you the chance to prove your personal try. Do not show extremely your optimism and pursue the unreality. Give

your answers the reality.

It is useful to predict a five to ten- year- scenario of expectations in order to gain your targets that you set up and it is the period of time to see how your plans and targets are performed.

Therefore, the quality of the product and marketability of the mentioned industry need to be highlighted. This will help you to achieve the interviewer's attention and insurance to you personality and you can get the honest and long- term goals.

[View All Answers](#)

Question - 34:

Where do you see yourself in five years As Network engineers?

Ans:

If asked this question, be honest and specific about your future goals, but consider this:

A hiring manager wants to know

* a) if you've set realistic expectations for your career,

* b) if you have ambition (a.k.a., this interview isn't the first time you're considering the question), and

* c) if the position aligns with your goals and growth. Your best bet is to think realistically about where this position could take you and answer along those lines.

And if the position isn't necessarily a one-way ticket to your aspirations?

It's OK to say that you're not quite sure what the future holds, but that you see this experience playing an important role in helping you make that decision.

[View All Answers](#)

Question - 35:

Do you work well on a team? How would you define teamwork?

Ans:

I would define team work as getting the job done As Network engineers whether that means if I have to do more then the guy next to me as long as the work gets finished.

[View All Answers](#)

Question - 36:

How do you handle conflicts with people you supervise?

Ans:

At first place, you try to avoid conflicts if you can. But once it happens and there's no way to avoid it, you try to understand the point of view of the other person and find the solution good for everyone. But you always keep the authority of your position.

[View All Answers](#)

Question - 37:

What are your personal skills which make you a candidate for the position As Network engineers?

Ans:

The list of crucial character traits includes patience, tact, and poise, with personal and cultural sensitivity. One needs the ability to work long hours, with much walking and some physical tasks. But the most important trait of all is to love people and to have the desire to care for them.

[View All Answers](#)

Question - 38:

What is it about this position As Network engineers that attracts you the most?

Ans:

Use your knowledge of the job description to demonstrate how you are a suitable match for the role.

[View All Answers](#)

Question - 39:

What can you tell me about team work as part of the job As Network engineers?

Ans:

There is usually a team of staff nurses working in cooperation with each other. A team of nurses has to get along well and coordinate their actions, usually by dividing their responsibilities into sectors or specific activities. They help each other perform tasks requiring more than one person.

[View All Answers](#)

Question - 40:

Did you get on well with your last manager?

Ans:

A dreaded question for many! When answering this question never give a negative answer. "I did not get on with my manager" or "The management did not run the business well" will show you in a negative light and reduce your chance of a job offer. Answer the question positively, emphasizing that you have been looking for a career progression. Start by telling the interviewer what you gained from your last job As Network engineers

[View All Answers](#)

Question - 41:

How many basketballs would fit in this room?

Ans:

One. You did not ask what is the maximum number of basketballs you can fit in the room.

[View All Answers](#)

Question - 42:

Do you like being around people?

Ans:

People skills are a necessity for medical assistants. When answering this question, be sure to show that you enjoy interacting and working with others and that you also derive great enjoyment from helping others. This will show that you are a team player and that you would be a valuable team member As Network engineers.

[View All Answers](#)

Question - 43:

Why are manhole covers round?

Ans:

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to "solve" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

[View All Answers](#)

Question - 44:

How well do you know this industry?

Ans:

Two things businesses need to pay attention to in their industries are what their competition is doing and the customers. You may not always agree with your competitors but it is important to be aware of what changes they are making. Very well. I have been in the industry for over 6 years.

[View All Answers](#)

Question - 45:

Why should we select you not others?

Ans:

Here you need to give strong reasons to your interviewer to select you not others. Sell yourself to your interviewer in interview in every possible best way. You may say like I think I am really qualified for the position. I am a hard worker and a fast learner, and though I may not have all of the qualifications that you need, I know I can learn the job and do it well."

[View All Answers](#)

Question - 46:

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Ans:

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[View All Answers](#)

Question - 47:

What are your salary expectations As Network engineers?

Ans:

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and you're goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

[View All Answers](#)

Question - 48:

What types of personalities do you work with best?

Ans:

In the past, I have found it difficult to work with others who see themselves as better than others, who can take criticism, and who refuse to work with others. I have found it challenging to work with them b/c I am a team oriented person who feels the importance of working together over the needs of the individual especially in a learning environment.

[View All Answers](#)

Question - 49:

Tell me something about your family background?

Ans:

First, always feel proud while discussing about your family background. Just simple share the details with the things that how they influenced you to work in an airline field.

[View All Answers](#)

Question - 50:

How would you motivate your team members to produce the best possible results?

Ans:

Trying to create competitive atmosphere, trying to motivate the team as a whole, organizing team building activities, building good relationships amongst people.

[View All Answers](#)

Question - 51:

What features of your previous jobs have you disliked?

Ans:

It's easy to talk about what you liked about your job in an interview, but you need to be careful when responding to questions about the downsides of your last position. When you're asked at a job interview about what you didn't like about your previous job, try not to be too negative. You don't want the interviewer to think that you'll speak negatively about this job or the company should you eventually decide to move on after they have hired you.

[View All Answers](#)

Question - 52:

Describe to me the position As Network engineers you're applying for?

Ans:

This is a "homework" question, too, but it also gives some clues as to the perspective the person brings to the table. The best preparation you can do is to read the job description and repeat it to yourself in your own words so that you can do this smoothly at the interview.

[View All Answers](#)

Question - 53:

What kind of salary do you need As Network engineers?

Ans:

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

[View All Answers](#)

Question - 54:

What is your desired salary As Network engineers?

Ans:

Bad Answer: Candidates who are unable to answer the question, or give an answer that is far above market. Shows that they have not done research on the market rate, or have unreasonable expectations.

Good answer: A number or range that falls within the market rate and matches their level of mastery of skills required to do the job.

[View All Answers](#)

Question - 55:

How many square feet of pizza are eaten in the United States each month?

Ans:

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

Question - 56:

What do you think we could do better or differently?

Ans:

This is a common one at startups. Hiring managers want to know that you not only have some background on the company, but that you're able to think critically about it and come to the table with new ideas. So, come with new ideas! What new features would you love to see? How could the company increase conversions? How could customer service be improved? You don't need to have the company's four-year strategy figured out, but do share your thoughts, and more importantly, show how your interests and expertise would lend themselves to the job.

**Question - 57:**

What type of work environment do you prefer?

Ans:

Ideally one that's similar to the environment of the company you're applying to. Be specific.

Question - 58:

Are you planning to continue your studies and training As Network engineers?

Ans:

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

Question - 59:

What would your first 30, 60, or 90 days look like in this role As Network engineers?

Ans:

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

Question - 60:

Why should the we hire you as this position As Network engineers?

Ans:

This is the part where you link your skills, experience, education and your personality to the job itself. This is why you need to be utterly familiar with the job description as well as the company culture. Remember though, it's best to back them up with actual examples of say, how you are a good team player.

Question - 61:

Explain an idea that you have had and have then implemented in practice?

Ans:

Often an interview guide will outline the so-called 'STAR' approach for answering such questions; Structure the answer as a situation, task, action, and result: what the context was, what you needed to achieve, what you did, and what the outcome was as a result of your actions.

Question - 62:

What was the most important task you ever had?

Ans:

There are two common answers to this question that do little to impress recruiters:

* 'I got a 2.1'

* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

Question - 63:

How much do you expect to get paid As Network engineers?

Ans:

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

Question - 64:

What problems have you encountered at work?

Ans:

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but

nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

Question - 65:

Why do you want to work As Network engineers for this organisation?

Ans:

Being unfamiliar with the organisation will spoil your chances with 75% of interviewers, according to one survey, so take this chance to show you have done your preparation and know the company inside and out. You will now have the chance to demonstrate that you've done your research, so reply mentioning all the positive things you have found out about the organisation and its sector etc. This means you'll have an enjoyable work environment and stability of employment etc - everything that brings out the best in you.

Question - 66:

Do you have any questions for me?

Ans:

Good interview questions to ask interviewers at the end of the job interview include questions on the company growth or expansion, questions on personal development and training and questions on company values, staff retention and company achievements.

Question - 67:

What is your greatest weakness As Network engineers? What are you doing to improve it?

Ans:

I believe my biggest weakness As Network engineers is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

Question - 68:

What's a time you exercised leadership?

Ans:

Depending on what's more important for the the role, you'll want to choose an example that showcases your project management skills (spearheading a project from end to end, juggling multiple moving parts) or one that shows your ability to confidently and effectively rally a team. And remember: "The best stories include enough detail to be believable and memorable,". Show how you were a leader in this situation and how it represents your overall leadership experience and potential.

Question - 69:

Where do you see yourself professionally five years from now As Network engineers?

Ans:

Demonstrate both loyalty and ambition in the answer to this question. After sharing your personal ambition, it may be a good time to ask the interviewer if your ambitions match those of the company.

[View All Answers](#)

Question - 70:

Do you think you have enough experience As Network engineers?

Ans:

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.
