# Rotary Derrick Operator Interview Questions And Answers Guide.

## Question - 1:

Tell me about a time you failed?

### Ans:

Everyone has failed, so don't play dumb or claim you've never messed up As Rotary Derrick Operator. Think of a time when a work-related situation didn't turn out quite as you had hoped. An interviewer is interested in seeing how you took responsibility for your failure, what you learned from it, and how you would prevent similar failures from happening again.

## Question - 5:

Top 13 Situational Interview Questions As Rotary Derrick Operator:

### Ans:

Situational interviews As Rotary Derrick Operator are similar to behavioral interview questions - but they are focused on the future, and ask hypothetical questions, whereas behavioral interview questions look at the past.

The advantage is that employers can put all candidates in the same hypothetical situations, and compare their answers.

1. What would you do if you made a strong recommendation in a meeting, but your colleagues decided against it?
2. How would you handle it if your team resisted a new idea or policy you introduced?
3. How would you handle it if the priorities for a project you were working on were suddenly changed?
4. What would you do if the work of an employee you managed didn't meet expectations?
5. What would you do if an important task was not up to standard, but the deadline to complete it had passed?
6. What steps would you take to make an important decision on the job As Rotary Derrick Operator?
7. How would you handle a colleague you were unable to form a positive relationship with?
8. What would you do if you disagreed with the way a manager wanted you to handle a problem?
9. What would you do if you were assigned to work with a difficult client As Rotary Derrick Operator?
10. What would you do if you worked hard on a solution to a problem, and your solution was criticized by your team?

11. How would you handle working closely with a colleague who was very different from you?
12. You're working on a key project that you can't complete, because you're waiting on work from a colleague. What do you do?
13. You realize that an early mistake in a project is going to put you behind deadline. What do you do?

**Question - 22:**

Explain what are your weaknesses As Rotary Derrick Operator?

**Ans:**

Red flags: This is the peanut butter to the previous question's jelly. Again, everyone should expect it, so it's a bad sign if someone seems totally unprepared, or gives a stock answer like, "I'm a perfectionist." Also, of course, candidates crazy enough to blurt out some horrible personality trait should go in the red flagged pile.

Good answer: Candidates should talk about a real weakness they've been working on improving. For instance, they're not good at public speaking, but they've been taking a course to help them improve. Or maybe they feel that they're easily distracted when working online, but have installed software that helps them stay on task. Answers like these show a desire for improvement, self awareness and discipline.

**Question - 28:**

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

**Ans:**

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has

moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

### Question - 30:

What is your greatest failure As Rotary Derrick Operator, and what did you learn from it?

#### Ans:

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

What problems have you encountered at work?

**Ans:**

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

**Question - 70:**

Why are you leaving your current job?

**Ans:**

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

**Question - 71:**

How would you define success?

**Ans:**

Success is defined differently for everybody. Just make sure the parameters are defined by you with regards to work life balance, financial gain, career growth, achievements, creating meaningful work / products and so forth. If you can clearly articulate what it means to you that is a strong answer.

**Question - 72:**

How have you changed in the last five years?

**Ans:**

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

**Question - 73:**

What was the most important task you ever had?

**Ans:**

There are two common answers to this question that do little to impress recruiters:

\* 'I got a 2.1'

\* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

**Question - 74:**

How many square feet of pizza are eaten in the United States each month?

**Ans:**

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.
