2nd Shift In Chemistry Interview Questions And Answers Guide.

Question - 1:

Would you like doing repetitive work?

Ans:

Why not, I am not only doing a repetitive work but also earning but also getting a good salary by the company Regarding 2nd Shift In Chemistry. And second thing is that nothing is interesting in the life till we are not interested.

[View All Answers](#)

Question - 2:

How well do you know our company?

Ans:

Well, a developed company that is gradually building their reputation in the competitive world.

[View All Answers](#)

Question - 3:

What five words would be describe you as 2nd Shift In Chemistry?

Ans:

The hiring manager requests this of you because she wants to know more about your individual personality. This list can reveal a lot to her about who you are and how you might fit into the workplace. Your answer also gives the manager an indication of your self-perception, which is a good indicator of the type of employee you will be.

[View All Answers](#)

Question - 4:

Are you able to relocate if required?

Ans:

Be completely honest and thoughtful with this one. You don't want to wake up one to find out that you're moving to a new city or state and it may be a major factor in your eligibility for employment. But again, if you don't want to move then the job probably isn't for you.

[View All Answers](#)

Question - 5:

You have a project due in one hour but a more important emergency that affects business needs to be fixed immediately, what do you do?

Ans:

Focus on the issue that impacts the business most first.

[View All Answers](#)

Question - 6:

Do you ever take work home with you?

Ans:

Here are two great sample answers that might help get you started:

* I am an extremely organized person, so I tend to be able to get my work done at work. However, if the need arose I would not be against taking work home. I try not to make it a habit, since I do value my free time. I do realize though that the work we do is important, and sometimes you have to do what needs to be done.

* I do not shy away from taking work home with me. I know that meeting deadlines and doing outstanding work sometimes means taking a bit of it home. I do not have a problem doing that when the need arises.

* Make sure to give an honest answer. Lying about taking work home may turn out badly for you if it is required and you do not do it.

Question - 7:

What critical component of this position Regarding 2nd Shift In Chemistry makes the work challenging?

Ans:

Heading information: This should include job title, pay grade or range, reporting relationship (by position, not individual), hours or shifts, and the likelihood of overtime or weekend work.

Summary objective of the job: List the general responsibilities and descriptions of key tasks and their purpose, relationships with customers, coworkers, and others, and the results expected of incumbent employees.

Qualifications: State the education, experience, training, and technical skills necessary for entry into this job.

Special demands: This should include any extraordinary conditions applicable to the job Regarding 2nd Shift In Chemistry (for example, heavy lifting, exposure to temperature extremes, prolonged standing, or travel).

Job duties and responsibilities: Only two features of job responsibility are important: identifying tasks that comprise about 90 to 95 percent of the work done and listing tasks in order of the time consumed (or, sometimes, in order of importance).

[View All Answers](#)

Question - 8:

What is more important to you money or success?

Ans:

First ask yourself that question before the interview - what are your priorities? Are money and success actual one in the same goal for you? If not, what's more important based on how do you define success?

[View All Answers](#)

Question - 9:

Your coworker highlights your mistakes in front of everyone, how do you handle the situation?

Ans:

Admit to the mistake without being emotional, but then discuss how you are being proactive in getting it fixed. Lastly, pull the co-worker aside later on to tell them that you'd appreciate it if they gave you the feedback 1:1 first before throwing you under the bus.

[View All Answers](#)

Question - 10:

Explain me what do you know about our company?

Ans:

Bad Answer: They don't know much about the company. If a candidate is serious and enthusiastic, they should have done some basic research.

Good answer: An answer that shows they've really done their homework and know what the company does, any important current events that involve the company, and the work culture.

[View All Answers](#)

Question - 11:

What have you done to improve your knowledge Regarding 2nd Shift In Chemistry in the last year?

Ans:

Try to include improvement activities that relate to the job Regarding 2nd Shift In Chemistry. A wide variety of activities can be mentioned as positive self-improvement. Have some good ones handy to mention.

[View All Answers](#)

Question - 12:

If you were interviewing someone for this position Regarding 2nd Shift In Chemistry, what traits would you look for?

Ans:

This is where the interviewer tries to turn the tables on you. Answer confidently by stating 3 specific traits that are applicable to that job role. For example, a consulting job would likely look for someone who can think outside of the box.

After answering, ask them, "Am I spot on here and if not, what traits would you look for?"

[View All Answers](#)

Question - 13:

What type of salary are you looking for?

Ans:

This can be a very tricky question as the individual asking it is probably digging for something other than a simple answer to the question. We recommend that you don't immediately respond to the question directly. Instead, say something like, "That a difficult question. What is range for this position?" More often than not the interviewer will tell you. If the interviewer insists on direct answer you may want say that it depends on the details of the job - then give a wide salary range.

[View All Answers](#)

Question - 14:

What have you learned from mistakes on this job?

Ans:

Candidates without specific examples often do not seem credible. However, the example shared should be fairly inconsequential, unintentional, and a learned lesson should be gleaned from it. Moving ahead without group assistance while assigned to a group project meant to be collaborative is a good example.

[View All Answers](#)

Question - 15:

Who has been an inspiration for you?

Ans:

Cite your role models (possible examples could be your parents, people successful in the industry, world leaders, etc)

[View All Answers](#)

Question - 16:

What do you like to do for fun?

Ans:

Be open to sharing hobbies and activities that you enjoy. Make sure you're genuine about it and don't list off things you don't really like because if they ask you a follow up question it'll be harder for you to answer.

[View All Answers](#)

Question - 17:

Tell me why do you want this job Regarding 2nd Shift In Chemistry?

Ans:

Bad Answer: No solid answer, answers that don't align with what the job actually offers, or uninspired answers that show your position is just another of the many jobs they're applying for.

Good answer: The candidate has clear reasons for wanting the job that show enthusiasm for the work and the position, and knowledge about the company and job.

[View All Answers](#)

Question - 18:

How does your present position differ from past ones?

Ans:

Describe the difference with regards to responsibilities, culture, team, career opportunity, and the work itself.

[View All Answers](#)

Question - 19:

You are not given the tools you need to be successful. How would you change that Regarding 2nd Shift In Chemistry?

Ans:

State a business case to your manager / leader as to why you need the tools and make the request for them.

[View All Answers](#)

Question - 20:

How did you hear about the position Regarding 2nd Shift In Chemistry?

Ans:

Another seemingly innocuous interview question, this is actually a perfect opportunity to stand out and show your passion for and connection to the company and for job Regarding 2nd Shift In Chemistry. For example, if you found out about the gig through a friend or professional contact, name drop that person, then share why you were so excited about it. If you discovered the company through an event or article, share that. Even if you found the listing through a random job board, share what, specifically, caught your eye about the role.

[View All Answers](#)

Question - 21:

Do you think you are overqualified for this position Regarding 2nd Shift In Chemistry?

Ans:

No matter your previous job experience or educational background, be sure to tell the interviewer you have the knowledge and skills to successfully execute the job responsibilities.

[View All Answers](#)

Question - 22:

What are you looking for in a new position Regarding 2nd Shift In Chemistry?

Ans:

I've been honing my skills Regarding 2nd Shift In Chemistry for a few years now and, first and foremost, I'm looking for a position where I can continue to exercise those skills. Ideally the same things that this position has to offer. Be specific.

[View All Answers](#)

Question - 23:

Your client is upset with you for a mistake you made, how do you react?

Ans:

Acknowledge their pain - empathize with them. Then apologize and offer a solution to fix the mistake.

[View All Answers](#)

Question - 24:

Why do you want to work for this company?

Ans:

Again be honest. The interviewer will be able to sense very quickly if you're being disingenuous. Your answer should be based on your personal reasons, career aspirations as well as research you've performed on the company. The most important thing you should do is make sure to relate your answer to your long-term career goals.

[View All Answers](#)

Question - 25:

What are your presentation skills like regarding 2nd Shift In Chemistry?

Ans:

Make sure you share a story that demonstrates your presentation skills in front of many people. If you are really brave, offer to give a snippet of that presentation to the interviewer. This will definitely be different from what most people do.

[View All Answers](#)

Question - 26:

What is your greatest failure regarding 2nd Shift In Chemistry, and what did you learn from it?

Ans:

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

[View All Answers](#)

Question - 27:

How important is a positive attitude to you?

Ans:

Incredibly important. I believe a positive attitude is the foundation of being successful - it's contagious in the workplace, with our customers, and ultimately it's the difference maker.

[View All Answers](#)

Question - 28:

What challenges are you looking for in this position?

Ans:

A typical interview question to determine what you are looking for in your next job, and whether you would be a good fit for the position being hired for, is "What challenges are you looking for in a position regarding 2nd Shift In Chemistry?" The best way to answer questions about the challenges you are seeking is to discuss how you would like to be able to effectively utilize your skills and experience if you were hired for the job. You can also mention that you are motivated by challenges, have the ability to effectively meet challenges, and have the flexibility and skills necessary to handle a challenging job. You can continue by describing specific examples of challenges you have met and goals you have achieved in the past.

[View All Answers](#)

Question - 29:

How do you handle your anger?

Ans:

I don't get angry very easily but in the rare occasion that I do, I hold it in and act as though nothing is wrong.

[View All Answers](#)

Question - 30:

Did you get on well with your last manager?

Ans:

A dreaded question for many! When answering this question never give a negative answer. "I did not get on with my manager" or "The management did not run the business well" will show you in a negative light and reduce your chance of a job offer. Answer the question positively, emphasizing that you have been looking for a career progression. Start by telling the interviewer what you gained from your last job regarding 2nd Shift In Chemistry.

[View All Answers](#)

Question - 31:

How do you define arrogance? Are you arrogant?

Ans:

Arrogance is having an attitude of superiority beyond reason. Confidence is believing in yourself without being cocky. You should not be arrogant.

[View All Answers](#)

Question - 32:

What are your personal skills which make you a candidate for the position Regarding 2nd Shift In Chemistry?

Ans:

The list of crucial character traits includes patience, tact, and poise, with personal and cultural sensitivity. One needs the ability to work long hours, with much walking and some physical tasks. But the most important trait of all is to love people and to have the desire to care for them.

[View All Answers](#)

Question - 33:

What are you most proud of?

Ans:

You should be proud of all your achievements Regarding 2nd Shift In Chemistry! We just don't have time to hear them all as interviewers most likely. Focus on 1 really good achievement that showcases characteristics like the following: Integrity, competitiveness, resourcefulness, intelligence, persistence, and so forth.

[View All Answers](#)

Question - 34:

How many tennis balls can you fit into a limousine? 1,000? 10,000? 100,000? Seriously?

Ans:

Well, seriously, you might get asked brainteaser questions like these, especially in quantitative jobs. But remember that the interviewer doesn't necessarily want an exact number-he wants to make sure that you understand what's being asked of you, and that you can set into motion a systematic and logical way to respond. So, just take a deep breath, and start thinking through the math. (Yes, it's OK to ask for a pen and paper!)

[View All Answers](#)

Question - 35:

How do you stay up to date with industry?

Ans:

Discuss how you stay up to date by reading industry specific sites, magazines, and Google / yahoo news. Also make sure you stay up to date by reading the current news on the company's website.

[View All Answers](#)

Question - 36:

What negative thing would your last boss say about you?

Ans:

"He/She wouldn't say anything bad, but he/she may point out I could improve in a certain area, and I've taken steps to become better at those skills"

[View All Answers](#)

Question - 37:

What types of situations do you consider "unfixable"?

Ans:

Most situations are "fixable" - the ones that are not are typically related to business ethics (someone is cheating the company, someone is stealing, etc)

[View All Answers](#)

Question - 38:

Have you ever mentored anyone before? If yes, describe the situation?

Ans:

Describe a time where you've helped someone else. Mentor ships can be informal so as you've helped someone over a period of time that can certainly count. The key is to highlight how you utilized certain skills/attributes like coaching, teaching, patience, communication skills, and so forth to mentor that person.

[View All Answers](#)

Question - 39:

What are the qualities of a good leader Regarding 2nd Shift In Chemistry? A bad leader?

Ans:

A good leader provides constructive criticism, motivates and inspires, coaches the mentee to be successful with their set of skills, and encourages them to push themselves. A bad leader only cares about his/her own interests and does not look out for the success of his/her staff.

[View All Answers](#)

Question - 40:

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Ans:

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

[View All Answers](#)

**Question - 41:**

Describe to me a time where you had to make a hard decision Regarding 2nd Shift In Chemistry?

Ans:

Hard decisions are hard for a reason. It could dramatically effect the company. It could affect other workers. So if you have a story about how you made a hard decision and had a good outcome, share that. If you have one where the outcome wasn't great, explain how you would have changed the way you approached the decision to show you learned how to improve.

[View All Answers](#)

Question - 42:

What other companies are you interviewing with?

Ans:

Companies ask this for a number of reasons, from wanting to see what the competition is for you to sniffing out whether you're serious about the industry. "Often the best approach is to mention that you are exploring a number of other similar options in the company's industry." It can be helpful to mention that a common characteristic of all the jobs you are applying to is the opportunity to apply some critical abilities and skills that you possess. For example, you might say 'I am applying for several positions with IT consulting firms where I can analyze client needs and translate them to development teams in order to find solutions to technology problems.'

[View All Answers](#)

Question - 43:

Why do you feel you will excel at this job?

Ans:

This question presents an excellent opportunity for you to discuss your education, qualifications and personal traits. You might say something like "I studied property management as well as behavior during my college years and I have two years' experience in real estate.

I can gauge the homes or apartments in which clients will be interested based solely upon the needs of their families. Finally, my organizational skills will allow me to schedule appointments or showings confidently and arrive for them punctually." This shows your interviewer that you have all of the skills necessary to become successful not only for yourself, but also for your employer.

[View All Answers](#)

Question - 44:

Explain me about a challenge or conflict you've faced at work Regarding 2nd Shift In Chemistry, and how you dealt with it?

Ans:

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[View All Answers](#)

Question - 45:

How would you be an asset to us Regarding 2nd Shift In Chemistry?

Ans:

Think again about the job specification and the skills needed for this role Regarding 2nd Shift In Chemistry. Have a paragraph prepared highlighting how you will be able to do the job and what you can bring to the team. It goes without saying that this paragraph should be positive.

[View All Answers](#)

Question - 46:

If you could offer suggestions on how to improve our company, what would you say?

Ans:

Examine the trends of the company and also where there may be some weaknesses (news articles often document this on public companies or look at their competitors to see how they're positioning it against them.) Then, once you have that knowledge, think creatively on how you could improve upon that weakness for them.

[View All Answers](#)

Question - 47:

What does your professional network look like?

Ans:

If you have a professional network, discuss it detail (# of contacts, people you know, their positions and what you've learned from them or how you've worked with them). If you don't have one, discuss how you would develop one (career fairs, networking events for that industry, through your existing friends, etc)

[View All Answers](#)

Question - 48:

What's been your biggest failure to date?

Ans:

Describe your biggest failure and discuss what you've learned from it and ideally how you've been successful since because of that lesson.

[View All Answers](#)

**Question - 49:**

How do you evaluate your ability to handle conflict?

Ans:

I pride myself on being a good problem solver. Through my previous job and management positions I have faced numerous conflicts in different situations, and my experiences have helped me to hone my issue resolution skills. I believe that it is important to get to and address the root of the issue, in a respectable manner.

[View All Answers](#)

Question - 50:

How much do you expect to get paid Regarding 2nd Shift In Chemistry?

Ans:

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[View All Answers](#)

Question - 51:

Rate yourself on a scale of 10?

Ans:

If you truly believe you're a 10, you better be able to explain why with examples / stories. If you believe you're a great contributor and have room to grow, say 8 or 9. If you're below that, explain what you would do to improve yourself to get the ranking you believe you can be.

[View All Answers](#)

Question - 52:

If I were to give you this salary you requested but let you write your job description for the next year, what would it say?

Ans:

It should say the same thing - after all - if you think this salary is fair then it should suit the responsibilities!

[View All Answers](#)

Question - 53:

Do you think you have enough experience Regarding 2nd Shift In Chemistry?

Ans:

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.

[View All Answers](#)

Question - 54:

Have you got any questions?

Ans:

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

[View All Answers](#)

Question - 55:

What would your first 30, 60, or 90 days look like in this role Regarding 2nd Shift In Chemistry?

Ans:

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

[View All Answers](#)

Question - 56:

Tell me one thing about yourself you wouldn't want me to know?

Ans:

Talk about a trait that you would consider a weakness. No need to talk about your deepest darkest secrets here.

[View All Answers](#)

Question - 57:

Does your boss know you're here today?

**Ans:**

Usually, you probably haven't told your boss for obvious reasons. So it's ok to say that they do not. You don't want to upset the balance at your current job after all and nothing is guaranteed in an interview. The interviewer should understand this stance.

[View All Answers](#)

Question - 58:

Are you planning to continue your studies and training Regarding 2nd Shift In Chemistry?

Ans:

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

[View All Answers](#)

Question - 59:

What would you do if our competitor offered you a position Regarding 2nd Shift In Chemistry?

Ans:

I would weigh the offer and consider it, however, this company and this role is my first choice.

[View All Answers](#)

Question - 60:

What does "thinking outside the box" mean to you?

Ans:

It means not doing things exactly the same way as everyone else. You've got to challenge the status quo and bring something new to the business.

[View All Answers](#)

Question - 61:

Describe a typical work week for this position Regarding 2nd Shift In Chemistry?

Ans:

Interviewers expect a candidate for employment to discuss what they do while they are working in detail. Before you answer, consider the position Regarding 2nd Shift In Chemistry you are applying for and how your current or past positions relate to it. The more you can connect your past experience with the job opening, the more successful you will be at answering the questions.

[View All Answers](#)

Question - 62:

What were the responsibilities of your last position Regarding 2nd Shift In Chemistry?

Ans:

If you want to show your ambition, you can discuss how you haven't reached all of your goals yet and in that sense aren't satisfied. However, if you want to discuss satisfaction from your job discuss an experience in which you achieved something.

[View All Answers](#)

Question - 63:

Are you aggressive?

Ans:

If you are, describe it through a story / experience that you had. If you aren't, then explain why you're not. If the job role asks for you to be aggressive/not aggressive and you're the opposite of it, explain how you would develop that characteristic.

[View All Answers](#)

Question - 64:

How do you ensure all of your work gets accomplished in a productive manner?

Ans:

The key is to prioritize what's important in your work and to stay organized to accomplish the tasks. A strong work ethic also helps.

[View All Answers](#)

Question - 65:

What's the most rewarding work you've ever done and why?

Ans:

Companies love it when you discuss how you've made an impact on your teammates, clients, or partners in the business or in school. It should be rewarding because of the hard work and creative process that you've put into it.

[View All Answers](#)

**Question - 66:**

How many square feet of pizza are eaten in the United States each month?

Ans:

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

[View All Answers](#)

Question - 67:

What type of work environment do you prefer?

Ans:

Ideally one that's similar to the environment of the company you're applying to. Be specific.

[View All Answers](#)

Question - 68:

Where do you see yourself professionally five years from now Regarding 2nd Shift In Chemistry?

Ans:

Demonstrate both loyalty and ambition in the answer to this question. After sharing your personal ambition, it may be a good time to ask the interviewer if your ambitions match those of the company.

[View All Answers](#)

Question - 69:

Why are you leaving your current job?

Ans:

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? Keep it simple: "Unfortunately, I was let go," is a totally OK answer.

[View All Answers](#)

Question - 70:

How do you handle stressful situations?

Ans:

By remaining calm, weighing out all my options and executing a plan to get the situation resolve .

[View All Answers](#)

Question - 71:

Tell me the difference between good and exceptional?

Ans:

Good gets the job done on time and is high quality. Exceptional is a game changer - it stands out, it's creative, it's above and beyond expectations. Tell the interviewer a story about how you were exceptional.

Question - 72:

How much time do you need to join the organization Regarding 2nd Shift In Chemistry?

Ans:

You should be able to join it right away, barring plans you've already made (family travel, vacation, other obligations). The key is to simply be open in communication of what's already committed on your schedule. Most companies are accommodating. If they are not, weight the importance of joining that company vs. your plans.

Question - 73:

Give an example of a time you successfully worked Regarding 2nd Shift In Chemistry on a team?

Ans:

On the whole I prefer to stick to doing what I'm told rather than setting myself up to fail by doing things off my own bat. But there was this one time when I suggested to my boss at the pizza parlor that she try offering an 'all you can eat' deal to students to boost trade on Mondays. She thought it was an interesting idea but nothing ever came of it.
