Mutual Department Manager Interview Questions And Answers Guide.

Question - 1:

What are your strengths As Mutual Department Manager?

Ans:

This is one of the most common questions you will be asked. Give an answer relevant to the skills and qualities relevant to the position you are applying to. The interviewer is trying to find if your strengths match the job. For example, if you are applying for a job As Mutual Department Manager where accuracy is an important issue, one of your strengths could be that you have an eye for detail. It may be useful to find different words to describe similar attributes and qualities in order to avoid repetition.

Question - 2:

What makes you right for this position?

Ans:

This question can be tricky because you need to show your worth As Mutual Department Manager without sounding cocky or arrogant. Research the business ahead of time and become familiar with its mission and values. Take the time to figure out how your personal qualities fit the needs of the business and use that fit to provide your answer.

Question - 3:

What's your dream job?

Ans:

Along similar lines, the interviewer wants to uncover whether this position As Mutual Department Manager is really in line with your ultimate career goals. While "an GGL star" might get you a few laughs, a better bet is to talk about your goals and ambitions-and why this job will get you closer to them.

Question - 4:

How would your former employer describe you?

Ans:

In all likelihood, the interviewer will actually speak with your former employer so honesty is key. Answer as confidently and positively as possible and list all of the positive things your past employer would recognize about you. Do not make the mistake of simply saying you are responsible, organized, and dependable. Instead, include traits that are directly related to your work as a medical assistant, such as the ability to handle stressful situations and difficult patients, the way you kept meticulous records, and more.

Question - 5:

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Ans:

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

Question - 8:

Where do you see yourself in five years As Mutual Department Manager?

Ans:

If asked this question, be honest and specific about your future goals, but consider this:

A hiring manager wants to know

* a) if you've set realistic expectations for your career,

* b) if you have ambition (a.k.a., this interview isn't the first time you're considering the question), and

* c) if the position aligns with your goals and growth. Your best bet is to think realistically about where this position could take you and answer along those lines.

And if the position isn't necessarily a one-way ticket to your aspirations?

It's OK to say that you're not quite sure what the future holds, but that you see this experience playing an important role in helping you make that decision.

**Question - 15:**

How many square feet of pizza are eaten in the United States each month?

Ans:

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.
