Question - 16:

Why are manhole covers round?

Ans:

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to "solve" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

Question - 69:

What are some of the things that you and your supervisor disagree upon and how do you resolve them? What do you do when you are pressed for a decision?

Ans:

The key is that you openly communicate your thoughts to your supervisor to explain your position and try to come to a mutual decision together. Also be sure to listen to his/her thoughts so that you can potentially compromise. When you're pressed for a decision, make sure you've put thought into the reasons as to how you arrived at it and then decisively make it.

Question - 72:

When was the last time something upset you at work? What did you do?

Ans:
Almost everyone has an emotional moment related to work at some point - you're not alone. The key is to learn why you reacted that way and to focus not on the problem but HOW to resolve it. Another key component is to be aware of your emotional response so that you can learn to control it in the future in a calm way.
