# Minicomputer Systems Programmer Interview Questions And Answers Guide.

## Question - 1:

Have you ever been caught stealing, or better yet, have you ever stole anything?

### Ans:

I guess everyone takes a pen or paper or little things like that. But other than that, NO. I have never stole from my employers or better yet As Minicomputer Systems Programmer, from anyone.

[View All Answers](#)

## Question - 2:

How do you evaluate success As Minicomputer Systems Programmer?

### Ans:

I evaluate success As Minicomputer Systems Programmer in different ways. At work, it is meeting the goals set by my supervisors and my fellow workers. It is my understanding, from talking to other employees, that the Global Guideline company is recognized for not only rewarding success but giving employees opportunity to grow as well.

[View All Answers](#)

## Question - 3:

Tell me about a time when you had to think strategically?

### Ans:

There was a time when I was told I had to get rid of 20% of my people. I had to determine which persons I needed the most by determining who could do what. I had to put aside personal feelings so that I could keep a working crew to handle the same workload with less people.

[View All Answers](#)

## Question - 4:

What are your greatest professional strengths As Minicomputer Systems Programmer?

### Ans:

When answering this question, we recommend being accurate (share your true strengths, not those you think the interviewer wants to hear); relevant (choose your strengths that are most targeted to this particular position As Minicomputer Systems Programmer); and specific (for example, instead of "people skills," choose "persuasive communication" or "relationship building"). Then, follow up with an example of how you've demonstrated these traits in a professional setting.

[View All Answers](#)

## Question - 5:

What is your greatest professional achievement?

### Ans:

Nothing says "hire me" better than a track record of achieving amazing results in past jobs As Minicomputer Systems Programmer, so don't be shy when answering this interview question! A great way to do so is by using the S-T-A-R method: Set up the situation and the task that you were required to complete to provide the interviewer with background context (e.g., "In my last job as a Minicomputer Systems Programmer, it was my role to manage the invoicing process"), but spend the bulk of your time describing what you actually did (the action) and what you achieved (the result). For example, "In one month, I streamlined the process, which saved my group 10 man-hours each month and reduced errors on invoices by 25%."

[View All Answers](#)

## Question - 6:

What motivates you?

### Ans:

I've always been motivated by the challenge - in my last role, I was responsible for training our new recruits and having a 100% success rate in passing scores. I know

that this job is very fast-paced and I'm more than up for the challenge. In fact, I thrive on it.

[View All Answers](#)

### Question - 7:

Why are you leaving last job?

#### Ans:

Although this would seem like a simple question, it can easily become tricky. You shouldn't mention salary being a factor at this point As Minicomputer Systems Programmer. If you're currently employed, your response can focus on developing and expanding your career and even yourself. If you're current employer is downsizing, remain positive and brief. If your employer fired you, prepare a solid reason. Under no circumstance should you discuss any drama or negativity, always remain positive.

[View All Answers](#)

### Question - 8:

Did you get on well with your last manager?

#### Ans:

A dreaded question for many! When answering this question never give a negative answer. "I did not get on with my manager" or "The management did not run the business well" will show you in a negative light and reduce your chance of a job offer. Answer the question positively, emphasizing that you have been looking for a career progression. Start by telling the interviewer what you gained from your last job As Minicomputer Systems Programmer

[View All Answers](#)

### Question - 9:

Explain me about a challenge or conflict you've faced at work As Minicomputer Systems Programmer, and how you dealt with it?

#### Ans:

In asking this interview question, your interviewer wants to get a sense of how you will respond to conflict. Anyone can seem nice and pleasant in a job interview, but what will happen if you're hired?. Again, you'll want to use the S-T-A-R method, being sure to focus on how you handled the situation professionally and productively, and ideally closing with a happy ending, like how you came to a resolution or compromise.

[View All Answers](#)

### Question - 10:

How do you imagine a typical day of an employee in our company As Minicomputer Systems Programmer?

#### Ans:

Just do not say that you imagine to only walk and watch what people do. Rather try to show them your attention to details and proactive attitude to job. Mention that you would try to observe the problems, weaknesses as well as opportunities to improve the results and take measures according to it.

[View All Answers](#)

### Question - 11:

How well do you know this industry?

#### Ans:

Two things businesses need to pay attention to in their industries are what their competition is doing and the customers. You may not always agree with your competitors but it is important to be aware of what changes they are making. Very well. I have been in the industry for over 6 years.

[View All Answers](#)

### Question - 12:

How would your former employer describe you?

#### Ans:

In all likelihood, the interviewer will actually speak with your former employer so honesty is key. Answer as confidently and positively as possible and list all of the positive things your past employer would recognize about you. Do not make the mistake of simply saying you are responsible, organized, and dependable. Instead, include traits that are directly related to your work as a medical assistant, such as the ability to handle stressful situations and difficult patients, the way you kept meticulous records, and more.

[View All Answers](#)

### Question - 13:

What are your salary requirements As Minicomputer Systems Programmer?

#### Ans:

The #1 rule of answering this question is doing your research on what you should be paid by using site like Global Guideline. You'll likely come up with a range, and we recommend stating the highest number in that range that applies, based on your experience, education, and skills. Then, make sure the hiring manager knows that you're flexible. You're communicating that you know your skills are valuable, but that you want the job and are willing to negotiate.

[View All Answers](#)

### Question - 14:

What do you like to do outside of work?

#### Ans:

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too.". In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it

semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

[View All Answers](#)

### Question - 15:

What other companies are you interviewing with?

#### Ans:

Companies ask this for a number of reasons, from wanting to see what the competition is for you to sniffing out whether you're serious about the industry. "Often the best approach is to mention that you are exploring a number of other similar options in the company's industry,". It can be helpful to mention that a common characteristic of all the jobs you are applying to is the opportunity to apply some critical abilities and skills that you possess. For example, you might say 'I am applying for several positions with IT consulting firms where I can analyze client needs and translate them to development teams in order to find solutions to technology problems.'

[View All Answers](#)

### Question - 16:

Why are manhole covers round?

#### Ans:

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

[View All Answers](#)

### Question - 17:

Why are you leaving the present company?

#### Ans:

According to me we can not grow in the field without taking more responsibilities and risks and also we can't enhance our team leading capabilities, managerial skills without expose to wide range of people.

[View All Answers](#)

### Question - 18:

Why should I hire you As Minicomputer Systems Programmer?

#### Ans:

To close the deal on a job offer, you MUST be prepared with a concise summary of the top reasons to choose you. Even if your interviewer doesn't ask one of these question in so many words, you should have an answer prepared and be looking for ways to communicate your top reasons throughout the interview process.

[View All Answers](#)

### Question - 19:

Do you have any questions for me?

#### Ans:

Good interview questions to ask interviewers at the end of the job interview include questions on the company growth or expansion, questions on personal development and training and questions on company values, staff retention and company achievements.

[View All Answers](#)

### Question - 20:

Do you have any question regarding this job As Minicomputer Systems Programmer?

#### Ans:

Never ask Salary, perks, leave, place of posting, etc. regarded questions. Try to ask more about the company to show how early you can make a contribution to your organization like. "Sir, with your kind permission I would like to know more about induction and developmental programs?" OR Sir, I would like to have my feedback, so that I can analyze and improve my strengths and rectify my shortcomings.

[View All Answers](#)

### Question - 21:

Do you have good computer skills?

#### Ans:

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

[View All Answers](#)

### Question - 22:

Do you think you have enough experience As Minicomputer Systems Programmer?

#### Ans:

If you do not have the experience they need, you need to show the employer that you have the skills, qualities and knowledge that will make you equal to people with experience but not necessary the skills. It is also good to add how quick you can pick up the routine of a new job role.

[View All Answers](#)

**Question - 23:**

Give me an example of an emergency situation that you faced. How did you handle it?

**Ans:**

There was a time when one of my employers faced the quitting of a manager in another country. I was asked to go fill in for him while they found a replacement and stay to train that person. I would be at least 30 days. I quickly accepted because I knew that my department couldn't function without me.

[View All Answers](#)

**Question - 24:**

How do you handle stressful situations?

**Ans:**

By remaining calm, weighing out all my options and executing a plan to get the situation resolve .

[View All Answers](#)

**Question - 25:**

How much do you expect to get paid As Minicomputer Systems Programmer?

**Ans:**

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[View All Answers](#)

**Question - 26:**

How would you motivate your team members to produce the best possible results?

**Ans:**

Trying to create competitive atmosphere, trying to motivate the team as a whole, organizing team building activities, building good relationships amongst people.

[View All Answers](#)

**Question - 27:**

How would you observe the level of motivation of your subordinates?

**Ans:**

Choosing the right metrics and comparing productivity of everyone on daily basis is a good answer, doesn't matter in which company you apply for a supervisory role.

[View All Answers](#)

**Question - 28:**

What do you think is your greatest weakness?

**Ans:**

Don't say anything that could eliminate you from consideration for the job. For instance, "I'm slow in adapting to change" is not a wise answer, since change is par for the course in most work environments. Avoid calling attention to any weakness that's one of the critical qualities the hiring manager is looking for. And don't try the old "I'm a workaholic," or "I'm a perfectionist."

[View All Answers](#)

**Question - 29:**

What does quality work mean to you?

**Ans:**

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[View All Answers](#)

**Question - 30:**

What is your biggest achievement?

**Ans:**

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[View All Answers](#)

**Question - 31:**

What is your greatest weakness As Minicomputer Systems Programmer? What are you doing to improve it?

**Ans:**

I believe my biggest weakness As Minicomputer Systems Programmer is wanting to help anyone I can help. What I mean is I am willing to take on task that are not

my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

[View All Answers](#)

### Question - 32:

What schedule do you hope to work? Are you willing to work extra hours?

#### Ans:

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.

[View All Answers](#)

### Question - 33:

What would your first 30, 60, or 90 days look like in this role As Minicomputer Systems Programmer?

#### Ans:

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

[View All Answers](#)

### Question - 34:

What's a time you exercised leadership?

#### Ans:

Depending on what's more important for the the role, you'll want to choose an example that showcases your project management skills (spearheading a project from end to end, juggling multiple moving parts) or one that shows your ability to confidently and effectively rally a team. And remember: "The best stories include enough detail to be believable and memorable,". Show how you were a leader in this situation and how it represents your overall leadership experience and potential.

[View All Answers](#)

### Question - 35:

Where do you see yourself professionally five years from now As Minicomputer Systems Programmer?

#### Ans:

Demonstrate both loyalty and ambition in the answer to this question. After sharing your personal ambition, it may be a good time to ask the interviewer if your ambitions match those of the company.

[View All Answers](#)

### Question - 36:

How do you think I rate as an interviewer?

#### Ans:

I think you did fine. I'm sure you've conducted a lot of interviews, and it's probably second nature for you now. Thanks for taking the time to meet with me today. I'm sure you have a lot of things you have to juggle every day. I'd say you rate at least ten out of ten. The questions you asked seemed spot on. I can tell you guys are working hard to find the perfect applicant for the job. I'm glad I could meet with you.

[View All Answers](#)

### Question - 37:

How have you changed in the last five years?

#### Ans:

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

[View All Answers](#)

### Question - 38:

What's your salary history?

#### Ans:

When you are interviewing for a new job, it is common practice for the company to ask you about your salary history. I typically want to know what the candidate's base salary is, if they receive any bonus, the average bonus amount, and any additional compensation or perks, such as 500k matching, stock grants or stock options, paid time off and how much they are required to pay towards their medical premiums.

[View All Answers](#)

### Question - 39:

If you had enough money to retire would you?

#### Ans:

Just be honest. If you would retire then say so. But since you can't retire, and the interviewer already knows this, simply answer that since you can't this is type of work you prefer doing. However, if you wouldn't retire if you had the money then explain why. Work is an important element of happiness for most people and many won't retire even when they can.

[View All Answers](#)

### Question - 40:

How do you believe you would benefit our organization?

#### Ans:

This is a great question that provides you the opportunity to put your best foot forward, to tell the interviewer why he or she should consider hiring you for the job. Make sure you're well prepared for this question as you won't likely get a second chance to really shine.

[View All Answers](#)

### Question - 41:

What is the most irritating thing you've experienced about your co-workers?

#### Ans:

This question is designed to find out if you get along well on team, with other and whether or not you'll be a fit with the interviewer's organization. It's a trap. Think real hard but fail to come up anything that irritated you about your co-workers. A short positive response is best.

[View All Answers](#)

### Question - 42:

What is your dream job?

#### Ans:

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may lose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

[View All Answers](#)

### Question - 43:

What has disappointed you about a previous job?

#### Ans:

Again, this question could get you in trouble so tread carefully. Some good answers might be that your previous job didn't provide any room for growth, that you were laid off due to a mandatory reduction in staff, that they closed their office in your state and required you to relocate, etc. Make sure not to mention anything negative about the people you worked with, the company in general or the job itself.

[View All Answers](#)

### Question - 44:

Describe your work ethic?

#### Ans:

While discussing this, be sure to stress specific examples of what you bring to the company. Good qualities include resolve to fulfill job responsibilities, optimism, and a desire to be as efficient as possible while at work.

[View All Answers](#)

### Question - 45:

What position do you prefer on a team working on a project?

#### Ans:

Do not claim to be comfortable with a specific role if you are in fact not comfortable with it. However, if you have no problem working in certain roles or situations, be sure to discuss this with the interviewer.

[View All Answers](#)

### Question - 46:

Explain what are your weaknesses As Minicomputer Systems Programmer?

#### Ans:

Red flags: This is the peanut butter to the previous question's jelly. Again, everyone should expect it, so it's a bad sign if someone seems totally unprepared, or gives a stock answer like, "I'm a perfectionist." Also, of course, candidates crazy enough to blurt out some horrible personality trait should go in the red flagged pile.

Good answer: Candidates should talk about a real weakness they've been working on improving. For instance, they're not good at public speaking, but they've been taking a course to help them improve. Or maybe they feel that they're easily distracted when working online, but have installed software that helps them stay on task. Answers like these show a desire for improvement, self awareness and discipline.

[View All Answers](#)

### Question - 47:

Tell me why do you want this job As Minicomputer Systems Programmer?

#### Ans:

Bad Answer: No solid answer, answers that don't align with what the job actually offers, or uninspired answers that show your position is just another of the many

jobs they're applying for.

Good answer: The candidate has clear reasons for wanting the job that show enthusiasm for the work and the position, and knowledge about the company and job.

[View All Answers](#)

### Question - 48:

Your client is upset with you for a mistake you made, how do you react?

**Ans:**

Acknowledge their pain - empathize with them. Then apologize and offer a solution to fix the mistake.

[View All Answers](#)

### Question - 49:

The change in the business industry now requires you to have a new set of skills you have to learn, how do you react to that?

**Ans:**

First, find out which skills are the ones that you're currently lacking. Then identify what the steps would be to acquire/build those skills. Then take action to do so.

[View All Answers](#)

### Question - 50:

Describe a time when you anticipated potential problems and developed preventive measures?

**Ans:**

The key here is to show that you were proactive. How did you find out about the potential problems? How did you address it quickly?

[View All Answers](#)

### Question - 51:

Describe your work style?

**Ans:**

Describe the positive aspects of your work style if possible, including: work ethic, attention to detail, interpersonal skills, skill sets (analytical or otherwise), leadership abilities, communication skills.

[View All Answers](#)

### Question - 52:

What's been your biggest failure to date?

**Ans:**

Describe your biggest failure and discuss what you've learned from it and ideally how you've been successful since because of that lesson.

[View All Answers](#)

### Question - 53:

How do you stay up to date with industry?

**Ans:**

Discuss how you stay up to date by reading industry specific sites, magazines, and Google / yahoo news. Also make sure you stay up to date by reading the current news on the company's website.

[View All Answers](#)

### Question - 54:

How do you feel about giving back to the community?

**Ans:**

Describe your charitable activities to showcase that community work is important to you. If you haven't done one yet, go to [www.globalguideline.com](http://www.globalguideline.com) - charitable work is a great way to learn about other people and it's an important part of society - GET INVOLVED!

[View All Answers](#)

### Question - 55:

Describe your academic achievements?

**Ans:**

Think of a time where you really stood out and shined within college. It could be a leadership role in a project, it could be your great grades that demonstrate your intelligence and discipline, it could be the fact that you double majored. Where have you shined?

[View All Answers](#)

### Question - 56:

Do you value recognition or pay more? Why?

**Ans:**

Either preference is fine, but just remember you have to be able to explain why. If you say recognition, then back that up by describing how achievement really carries weight with you and how you like to feel valued in the work that you do because it validates that you're helping your teammates / customers and so forth. If you choose money, you can also explain that is important to you as validation and you can highlight how money is important to you because of your goals (financial

security, providing for your family, and so forth). The key is to be authentic with your answer. However, if you say you value pay more because you're greedy - know that doesn't align usually to most company's values/vision.

[View All Answers](#)

**Question - 57:**

What other companies are you interviewing at?

**Ans:**

Be open and share if you are indeed interviewing elsewhere, but do it in a humble way. This way you don't seem arrogant and the interviewer knows your skills are valued by other companies. This also tends to make them want you more as they know they are competing for your services.

[View All Answers](#)

**Question - 58:**

What are your thoughts on social media for this role?

**Ans:**

Without a doubt, social media is becoming more and more pervasive in our jobs. You should stress that social media is not appropriate for personal use at work. However, if the company embraces social media in certain departments (for example marketing), then you may want to discuss how you could use it for work (as long as it applies to your role).

[View All Answers](#)

**Question - 59:**

What role do you see technology playing in this role?

**Ans:**

Technology is important to almost every job today but it's not meant to be abused. I believe it's important to increase productivity and not for personal use.

[View All Answers](#)

**Question - 60:**

What's the least rewarding work you've ever done and why?

**Ans:**

Describe work you've done that you feel doesn't take advantage of your full potential. For example, "I once had to make paper copies for my job and I feel it didn't take full advantage of my skills. However, it did teach me to be humble in my work and to appreciate a good opportunity when it arose to use my skills"

[View All Answers](#)

**Question - 61:**

Describe what a "lot of work" looks like to you As Minicomputer Systems Programmer?

**Ans:**

Ideally you'd like to state that you can take on a lot of work - this shows your work ethic, but at the same time it's okay to tell them that you value work and life balance.

[View All Answers](#)

**Question - 62:**

What were the responsibilities of your last position As Minicomputer Systems Programmer?

**Ans:**

If you want to show your ambition, you can discuss how you haven't reached all of your goals yet and in that sense aren't satisfied. However, if you want to discuss satisfaction from your job discuss an experience in which you achieved something.

[View All Answers](#)

**Question - 63:**

What do you look for in terms of culture -- structured or entrepreneurial?

**Ans:**

A good answer is to discuss the importance of having both elements in a company As Minicomputer Systems Programmer. Structure is good to maintain a focus on priorities and making sure people are productive but having an entrepreneurial spirit can help cultivate new ideas that can truly help the company.

[View All Answers](#)

**Question - 64:**

What techniques and tools do you use to keep yourself organized As Minicomputer Systems Programmer?

**Ans:**

Utilizing a calendar, having a notebook with your "to do" list, focusing on your top 3 priorities each and every day, utilizing a systematic way of storing documents on your computer (like box.net)

[View All Answers](#)

**Question - 65:**

Was there a person in your career who really made a difference?

**Ans:**

If you can't think of one, you need to get a mentor QUICKLY! Mentors can come in the form of peers, family members, co-workers, management / leaders at a company and so on.

[View All Answers](#)

**Question - 66:**

What negative thing would your last boss say about you?

**Ans:**

"He/She wouldn't say anything bad, but he/she may point out I could improve in a certain area, and I've taken steps to become better at those skills"

[View All Answers](#)

**Question - 67:**

If you were interviewing someone for this position As Minicomputer Systems Programmer, what traits would you look for?

**Ans:**

This is where the interviewer tries to turn the tables on you. Answer confidently by stating 3 specific traits that are applicable to that job role. For example, a consulting job would likely look for someone who can think outside of the box.

After answering, ask them, "Am I spot on here and if not, what traits would you look for?"

[View All Answers](#)

**Question - 68:**

What is your greatest fear?

**Ans:**

We all have fears. It's okay to discuss them. Just don't dive too deeply into them. Discuss how you would work to overcome your fears. You don't want to seem weak. You want to acknowledge it's out there but that you'll be able to work through it.

[View All Answers](#)

**Question - 69:**

What is your greatest achievement outside of work As Minicomputer Systems Programmer?

**Ans:**

This is a great opportunity for you to discuss how you've given back to the community, how you've achieved in a competitive extracurricular activity (think sports or clubs), how you've mentored others, and so forth.

[View All Answers](#)

**Question - 70:**

Tell me one thing about yourself you wouldn't want me to know?

**Ans:**

Talk about a trait that you would consider a weakness. No need to talk about your deepest darkest secrets here.

[View All Answers](#)

**Question - 71:**

Tell me the difference between good and exceptional?

**Ans:**

Good gets the job done on time and is high quality. Exceptional is a game changer - it stands out, it's creative, it's above and beyond expectations. Tell the interviewer a story about how you were exceptional.

**Question - 72:**

What kind of car do you drive?

**Ans:**

The only time this might matter is if the job requires a certain type of car because of the responsibilities. For example, if you need to load a lot of construction materials into your car, you'll probably need a truck.

**Question - 73:**

There's no right or wrong answer, but if you could be anywhere in the world right now, where would you be?

**Ans:**

Just be honest about where you'd like to be - you never know - you may end up bonding with the interviewer with the location. However, you want to stress that you want to work out of the location that you're interviewing for.

**Question - 74:**

What would you do if you won the lottery?

**Ans:**

The interviewer is asking this question to find out what your true passion is. Ideally it aligns to the type of work you're interviewing for. If not, tie it back in terms of how it relates to the job, for example, "I believe I'll learn the necessary skills in this job to pursue my passion later on in life."

**Question - 78:**

How do you define arrogance? Are you arrogant?

**Ans:**

Arrogance is having an attitude of superiority beyond reason. Confidence is believing in yourself without being cocky. You should not be arrogant.

**Question - 79:**

How do you handle repetitive tasks?

**Ans:**

Some people enjoy it, others don't. Which are you? If you don't like it, can you at least do it well? And if you don't like it, be ready to explain why in a positive way (i.e. your potential is to do much more than simply be repetitive)

**Question - 80:**

What was the biggest professional risk you have taken and what was the outcome?

**Ans:**

First discuss how you weighed the pros and cons of the risk and the results you'd believe you could achieve. Then discuss the action plan you put into place for it and outline that step by step. Then discuss the outcome and if it wasn't optimal talk about what you would do differently in hindsight.
