## Question - 2:

Tell me about yourself?

### Ans:

There are some questions that your potential employer aren't allowed to ask (but trust me, they probably want to). For instance, they shouldn't really ask about your family or how far away you live from your potential place of employment. If you can find a way to answer these questions anyway (with the answers they want to hear), that will give them a little added info to help them make the (right) decision!

### Question - 11:

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

#### Ans:

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

### Question - 12:

If you were an animal, which one would you want to be?

#### Ans:

Seemingly random personality-test type questions like these come up in interviews generally because hiring managers want to see how you can think on your feet.

There's no wrong answer here, but you'll immediately gain bonus points if your answer helps you share your strengths or personality or connect with the hiring manager. Pro tip: Come up with a stalling tactic to buy yourself some thinking time, such as saying, "Now, that is a great question. I think I would have to say..."

### Question - 15:

Why are manhole covers round?

#### Ans:

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

I can gauge the homes or apartments in which clients will be interested based solely upon the needs of their families. Finally, my organizational skills will allow me to schedule appointments or showings confidently and arrive for them punctually." Have you got any questions?

**Ans:**

Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

**Question - 24:**

How would your friends describe you?

**Ans:**

My friends would probably say that I'm extremely persistent - I've never been afraid to keep going back until I get what I want. When I worked as a program developer, recruiting keynote speakers for a major tech conference, I got one rejection after another - this was just the nature of the job. But I really wanted the big players - so I wouldn't take no for an answer. I kept going back to them every time there was a new company on board, or some new value proposition. Eventually, many of them actually said "yes" - the program turned out to be so great that we doubled our attendees from the year before. A lot of people might have given up after the first rejection, but it's just not in my nature. If I know something is possible, I have to keep trying until I get it.

This is a toughie, but one you can be sure you'll be asked. Definitely keep things positive-you have nothing to gain by being negative about your past employers. Instead, frame things in a way that shows that you're eager to take on new opportunities and that the role you're interviewing for is a better fit for you than your current or last position. For example, "I'd really love to be part of product development from beginning to end, and I know I'd have that opportunity here." And if you were let go? What problems have you encountered at work?

**Ans:**

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

There are two common answers to this question that do little to impress recruiters:
