BlackBerry Tablet OS Interview Questions And Answers Guide.

Question - 1:

Where should we save our app data to on the Playbook?

Ans:

Files for unrestricted use by the user, and certainly if to be used with other apps, go in documentsDirectory or userDirectory, but there's currently no distinction between them so pick whichever feels best to you.

If you don't mind some PB-specific support, consider adding one of the listed subfolders below the userDirectory, with things like File.userDirectory.resolvePath('photos/myimage.jpg').

App data that is to only be used with your app should be saved in the applicationStorageDirectory

Question - 4:

What size should an apps icon be?

Ans:

86x86. Icons larger than this will not display. For more info read the docs.

You will also need 480x480 icon for display in Blackberry App world.

Question - 9:

Tell us what you know about BlackBerry Tablet OS?

Ans:

BlackBerry Tablet OS is an operating system from BlackBerry Ltd based on the QNX Neutrino real-time operating system designed to run Adobe AIR and BlackBerry WebWorks applications, currently available for the BlackBerry PlayBook tablet computer. The BlackBerry Tablet OS is the first tablet running an operating system from QNX, the company responsible for real-time operating systems used in products from cars to nuclear reactors. QNX is now a subsidiary of RIM.
