Question - 2:

Disease x succeeds lung disease. it may also occur healthy persons the person looks healthier from outside. the number of red blood cells in the blood increased and this leads to thickness of the blood as a result of which blood lacks inside the vessels .the person suffers heart attack. one possible solution is to remove a liter of blood or to control the growth of red blood cells?

Ans:

lung disease precedes the disease x (True/False/Can't say)
a person who gets heart attack always has disease x (True/False/Can't say)
people suffering from disease x look healthier (True/False/Can't say)
one liter of blood must be removed to cure this (True/False/Can't say)
1>lung disease precedes the disease : False(X succeeds(cause) Lung disease)
2> a person who gets heart attack always has disease x :Can't say.
3>people suffering from disease x look healthier : Trueone liter of blood must be removed to cure this : False(we can control growth of red blood by other way)

Question - 3:

Anyone whose has systematically examined faces will have perceived a preponderance although not a proliferation of asymmetry. whether or not the expression is volitional and self controlled or spontaneous appears to predict facial asymmetry as does the type of emotion portrayed. positive emotions are usually displayed symmetrically although a left sided representation of a negative emotion is more common. posed expressions and negative emotions are less likely to be symmetrically represented?

Ans:

an angry person is more likely to have a lopsided expression than someone who is smiling (True/False/Can't say)
a deliberately assumed facial expression will always be asymmetrical (True/False/Can't say)
an actor is likely to smile symmetrically when acting more self consciously (True/False/Can't say)
people are likely to have less asymmetric facial expressions than those who are less aware of themselves (True/False/Can't say)
an angry person is more likely to have a lopsided expression than someone who is smiling (True)
a deliberately assumed facial expression will always be asymmetrical (True)
an actor is likely to smile symmetrically when acting more self consciously (False: cos deliberate expressions tend to be asymmetrical)
people are likely to have less asymmetric facial expressions than those who are less aware of themselves (Can't say)

Question - 4:

A weed killer to kill the weeds has been developed. the weed killer solution has to be applied to the growing tips. it need not to be applied to all the tips. the solution has to be prepared in a can in one hand and the plants are taken in the other hand with a glove and are immersed in the solution if we cannot immerse them in the solution the solution can be applied to the roots with a brush. it used without care it can pose danger to other plants?

Ans:

the solutions has to applied to growing leaves (True/False/Can't say)
to use the weed killer first take the plants in the can as then pour the solution into it.(True/False/Can't say)

it is sufficient to apply it only to some roots (True/False/Can't say)

it effects to the other plants. (True/False/Can't say)

1> False: comment : It is applied to the roots of the plants. Line no 3: if we cannot immerse them in the solution the solution can be applied to the roots with a brush.

2> False Because solution is dangerous. it is applied to roots only not to leaves, otherwise it will damage to plant..

3> False It will effect to other plants only when it is not handled properl.

Question - 5:

Researchers in Mumbai have found that certain types of gallstones can be dissolved by injecting them with a gasoline additive in the form of ether. The ether is injected through a tube directly into a tube directly into the gallbladder. the one day treatment works only on cholesterol-based stones. Not those composed largely of calcium. however as the cholesterol stones are by far the most common type for millions of gallstones sufferers the treatment should offer a welcome alternative to surgery (the most common option in most hospitals)?

Ans:

injecting ether into the gallbladder dissolves most gallstones (True/False/Can't say)

surgery is the only treatment for calcium stones (True/False/Can't say)

hundreds of people contains calcium stones (True/False/Can't say)

calcium stones will be cured in one day (True/False/Can't say)

1) True

2) True

3) Can't Say

4) False

Question - 7:

Hacking is a crime made possible by a relatively new technology, which one of the reasons it is often poorly understood and reported. Many computers, but no means all, are now linked together in networks which allow users on one computer to communicate with others on the same network. If a computer is not networked, no manipulation of its data from another machine is possible. So long as users are authorized, networking is just a way of making work easier and more productive. Hacking on the other hand, is the unauthorized use of networks or unauthorized entity into the computers themselves. Most people do not need to break into the networks they use, since they are already accredited users?

Ans:

Most hackers are authorized to break into networks (True/False/Can't say)

Computers are only vulnerable to the unauthorized manipulation of their data via another computer if they are networked (True/False/Can't say)

The main reason why it is relatively easy to break into a computer is that few people understand the technology. (True/False/Can't say)

Hackers do not work for the firms whose networks they break into. (True/False/Can't say)

False

False

True

False

Question - 8:

Although invaders represent a threat to the conservation of flora and fauna, there are two special cases in which invasion have been deliberately brought about. One is the desire to control presents by natural predators, which may have to be brought in from other countries. The second is releasing organisms into the wild (or on to farms, from which they might escape) that are completely novel, because they have been genetically engineered. There is nothing intrinsically sinister about engineered organisms, but any novelty must be regarded as a potential invader?

Ans:

Pest control does not threat the conservation of flora and fauna. (True/False/Can't say)

Genetically engineered organisms must always be regarded as potentially dangerous. (True/False/Can't say)

Natural predators are work harmful than pests. (True/False/Can't say)

Genetically engineered organisms escaped from the farm, they will pose a threat to wildlife. (True/False/Can't say)

True

True

False

Question - 10:

Statistics show that millions of vehicles have been carried by shuttle over the past 30 years through alpine tunnels without one ever catching fire. In the alpine tunnels. Drivers and passengers sit in their vehicles on the shuttle trains. Only one vehicle has ever caught fire on the busy French monorail equivalent system. This sort of accidents is not possible in a closed shuttle. Assertions that a vehicle fire will lead to catastrophe have no basis. since the resources exit do detect, control and extinguish a fire and to remove any persons present safely to an adjoining wagon, leaving any surviving fire facing rapid extinction within a wagon built to contain fire for 30 minutes. Catastrophe seems very unlikely?

Ans:

If a car caught fire in a rail shuttle, probably none would be killed. (True/False/Can't say)
At least one vehicle has caught fire in an alpine tunnel.(True/False/Can't say)
If a fire started in a wagon, it would be allowed to burn itself out in 30 minutes. (True/False/Can't say)
If would theoretically be possible for a car to catch fire in a closed shuttle system. (True/False/Can't say)
True
False(..without even one catching fire)
False
True

Question - 11:

In the past helicopters are forced to ground or crash because of the formation of the ice on the rotors and engines. A new electronic device has been developed which can detect the water content in the atmosphere and warns the pilot if the temperature is below freezing temp about the formation of the ice on the rotors and wings?

Ans:

the electronic device can avoid formation of the ice on the wings (True/False/Can't Say)
There will be the malfunction of rotor & engine because of formation of ice (True/False/Can't Say)
The helicopters are to be crashed or down (True/False/Can't Say)
There is only one device that warn about the formation of ice (True/False/Can't Say)
1.False (The e device is onli used to detect, does not avoid the formation of ice)
2.True (That is why they were not allowed to fly)
3.
4. Can't say (There may be many other devices also)

Question - 14:

Confucius said that to know the future we have to understand the past his time transport ,communications and scientific knowledge were less developed than they are today. News took weeks to travel where as today satellite links connect the continents virtually instantaneously. But our technological advances in the field of communications seem not to have improved our capacity to understand one another?

Ans:

in Confucius day people were more intelligent (True/False/Can't say)

We understand each other better now than in Confucius time because we can travel more quickly (True/False/Can't say)

We have made great improvements in transport since Confucius day (True/False/Can't say)

None of our scientific discoveries has really improved our lives (True/False/Can't say)

- 1.true(bcoz it represents todays life)
2. false(eventhough we improved in technology yet we not improved in understanding)
- 3.true(transport has been improved today)
- 4.true(they improved in transport but not improved our understandability of people)

Question - 19:

Electronics technology is coming to the rescue of helicopters which can be grounded or crash in icy conditions the machines are especially vulnerable to the build up of ice on both their rotors and engine air intake when operating in cold damp conditions. the problem is 2 fold ice increases the weight and the build up makes the

aerofoils less efficient .now at last a detector has been devised which the company hopes will means after flights and less frequent grounding. unlike most devices in use at present it can detect the liquid water content of cloud above freezing level. so the warning is given before the potential hazard is encountered?

Ans:

an electronic device has been invented which will prevent the build up of ice on helicopter rotors (True/False/Can't say)

helicopters are sometimes grounded because in cold damp weather their engine air intakes and rotors malfunction owing to the formation of ice. (True/False/Can't say)

only one device can at present detect the liquid water content of cloud above freezing level (True/False/Can't say)

in future fewer helicopters will crash or have to be grounded (True/False/Can't say)

1. false
2. true
3. can't say
4. can't say

Question - 21:

The purpose of the proposed law requiring a doctor's prescription for obtaining hypodermic needles is to lower the incidence of drug-related deaths, both accidental and intentional, involving hypodermic needles. But even knitting needles can be lethal if they fall into the wrong hands; yet everyone would agree that imposing legal restrictions on obtaining knitting needles would be preposterous. Hence the proposed law involving hypodermic makes no sense and should not be enacted.

Which of the following, if true, would provide most support for the argument above?

- (A) Knitting needles have been known to cause injury and death.
- (B) The benefits of hypodermic needles outweigh those of knitting needles.
- (C) The proposed law would not deter the sort of activity known to result in drug-related deaths.
- (D) The proposed law could not be effectively enforced.
- (E) Knitting needles are not readily available to anybody who wants to obtain them.

Ans:

(C) The proposed law would not deter the sort of activity known to result in drug-related deaths.
