Question - 38:

Which of the following is(are) true of system analysts?

- A. their responsibility is to analyze and design system software
- B. they may be looked upon as an intermediary between users and programmers
- C. they are heavily involved with the system-development life cycle
- D. both (a) and (c)
- E. None of the above

Ans:

D. both (a) and (c)

[View All Answers](#)

Question - 39:

Encryption is being used primarily with:

- A. file retention
- B. transaction entry
- C. computer processing
- D. data communication

Ans:

D. data communication

[View All Answers](#)

Question - 40:

From a data systems design viewpoint, the number of different types of general ledger entries is:

- A. six
- B. three
- C. four
- D. one
- E. None of the above

Ans:

C. four

[View All Answers](#)

Question - 41:

Which of the following is not an important principle for evaluating the raw data for decision-making:

- A. selection
- B. pattern
- C. average
- D. overview
- E. None of the above

Ans:

C. average

[View All Answers](#)

Question - 42:

The use of computers in data processing has had several impacts on business. Which of the following is not one of them?

- A. easier business growth
- B. fewer clerical workers
- C. increased data-processing costs
- D. more and better information
- E. None of the above

Ans:

C. increased data-processing costs

[View All Answers](#)

Question - 43:

Production machines were first controlled by the computer by means of:

- A. punched cards
- B. punched paper tape
- C. magnetic tape
- D. magnetic cards
- E. None of the above

Ans:

- B. punched paper tape

Question - 46:

A financial modeling package for a PC is similar to a spreadsheet package, but it can handle larger data files than a spreadsheet, and it has a built-in _____ seeking function.

- A. aim
- B. target
- C. goal
- D. plan
- E. None of the above

Ans:

- C. goal

[View All Answers](#)

Question - 47:

_____ decisions are those decisions for which policy standards or guidelines are already established.

- A. programmable
- B. control
- C. predictive reports
- D. relevant
- E. None of the above

Ans:

- A. programmable

[View All Answers](#)

Question - 48:

_____ means that the manager spends his or her time dealing with exceptions or those situations which are out of control.

- A. relevant
- B. management by exception
- C. predictive reports
- D. control
- E. None of the above

Ans:

- B. management by exception

Question - 54:

Which one of the following represents an activity:

- A. excavation for foundation
- B. curing of concrete
- C. setting of question paper
- D. preparation of breakfast
- E. all the above

Ans:

E. all the above

[View All Answers](#)

Question - 55:

Bar charts are suitable for:

- A. minor works
- B. major works

- C. large projects
- D. all the Above

Ans:

- A. minor works

[View All Answers](#)

Question - 56:

Works costing less than Rs. 20,000 are treated as:

- A. projects
- B. major projects
- C. minor projects
- D. all the above

Ans:

- C. minor projects

[View All Answers](#)

Question - 57:

If the total float and duration of an activity are 5 and 10 days respectively, the particular activity can be:

- A. started 5 days later
- B. completed 5 days later
- C. performed at slower rate in 15 days
- D. all the above

Ans:

- D. all the above

[View All Answers](#)

Question - 58:

Pick up the correct statement from the following:

- A. CPM analysis is activity oriented
- B. PERT analysis is event oriented
- C. CPM does not make any allowance for the uncertainties in the duration of time
- D. In CPM, the time is related to cost
- E. All the above

Ans:

- E. All the above

[View All Answers](#)

Question - 59:

Modular co-ordination of construction means proper:

- A. planning
- B. designing
- C. execution
- D. all the above

Ans:

- D. all the above

[View All Answers](#)

Question - 60:

A CPM family includes:

- A. CPA (Critical Path Analysis)
- B. CPP (Critical Path Plotted)
- C. MCE (Minimum Cost Expenditure)
- D. CPS (Critical Path Scheduling)
- E. All the above

Ans:

- E. All the above

[View All Answers](#)

Question - 61:

The time which results in the least, possible construction cost of an activity, is known:

- A. normal time
- B. slow time
- C. crash time
- D. standard time

Ans:

- B. slow time

[View All Answers](#)

**Question - 62:**

The artificial activity which indicates that an activity following it, cannot be started unless the preceding activity is complete, is known as:

- A. event
- B. free float
- C. dummy
- D. constant

Ans:

- C. dummy

[View All Answers](#)

Question - 63:

The overall in-charge of an organisation at the site responsible for the execution of the works, is:

- A. Executive Engineer
- B. Engineer
- C. Junior Engineer
- D. Sub overseer
- E. Assistant Engineer

Ans:

- B. Engineer

[View All Answers](#)

Question - 64:

The first method invented for planning projects, was:

- A. Bar chart method
- B. Milestone chart
- C. Critical path method (CPM)
- D. Program Evaluation and Review Technique (PERT)

Ans:

- A. Bar chart method

[View All Answers](#)

Question - 65:

The time by which activity completion time can be delayed without affecting the start of succeeding activities, is known as:

- A. duration
- B. total flat
- C. free float
- D. interfering float

Ans:

- C. free float

[View All Answers](#)

Question - 66:

An Executive Engineer may have powers upto:

- A. Rs. 25,000
- B. Rs. 50,000
- C. Rs. 100,000
- D. Rs. 200,000
- E. Rs. 500,000

Ans:

- A. Rs. 25,000

[View All Answers](#)

Question - 67:

The estimated time required to perform an activity, is known as:

- A. event
- B. dummy
- C. duration
- D. float

Ans:

- C. duration

[View All Answers](#)

Question - 68:

Critical path method:

- A. is an improvement upon bar chart method
- B. provides a realistic approach to daily problems
- C. avoids delays which are very common in bar charts
- D. was invented by Morgan R. Walker of Dupot and James E. Kalley or Remington U.S.A. in 1957

E. All the above

Ans:

E. All the above

[View All Answers](#)

Question - 69:

Critical Path Net Work helps an engineer:

- A. to concentrate his attention on critical activities
- B. to divert the resources from non-critical advanced activities to critical activities
- C. to be cautious for avoiding any delay in the critical activities to avoid delay of the whole project
- D. all the above

Ans:

D. all the above

[View All Answers](#)

Question - 70:

The main principle of an organisation, is:

- A. unity of command
- B. cohegency
- C. effective control at all levels
- D. delegation of authority
- E. all the above

Ans:

E. all the above

[View All Answers](#)

Question - 71:

Site order book is used for recording:

- A. instructions by the executive engineers
- B. construction measurements
- C. issue of store equipment's
- D. names of the casual labour

Ans:

A. instructions by the executive engineers

[View All Answers](#)

Question - 72:

The salient feature of functional organisation is:

- A. strict adherence to specifications
- B. separation of planning and design part
- C. each individual maintains functional efficiency
- D. work is properly planned and distributed
- E. all the above

Ans:

E. all the above

[View All Answers](#)

Question - 73:

The difference between the time avail-to do a job and the time required to do the job, is known as:

- A. event
- B. float
- C. duration
- D. constraint

Ans:

B. float

[View All Answers](#)

Question - 74:

The object of technical planning, is:

- A. preparation of specifications
- B. preparation of estimates
- C. initiating the procurement action of resources
- D. taking remedial action for likely bottleneck in the execution
- E. all the above

Ans:

E. all the above

[View All Answers](#)

**Question - 75:**

Various activities of a project, are shown on bar charts by:

- A. vertical lines
- B. horizontal lines
- C. dots
- D. crosses.

Ans:

- B. horizontal lines

[View All Answers](#)

Question - 76:

The most popular type of organisation used for Civil Engineering Constructions, is:

- A. line organisation
- B. line and staff organisation
- C. functional organisation
- D. effective organisation

Ans:

- A. line organisation

[View All Answers](#)

Question - 77:

Pick up the incorrect statement from the following:

- A. The activity is the time consuming part of a project
- B. The beginning and end of a job, are called events
- C. The activity which consumes maximum time, is called a node
- D. Logically and sequentially connected activities and events form a network
- E. None of these

Ans:

- C. The activity which consumes maximum time, is called a node

[View All Answers](#)

Question - 78:

Time and progress chart of a construction, is also known as:

- A. Bar chart
- B. Gantt chart
- C. Modified Mile stone chart
- D. Critical path method chart
- E. All the above

Ans:

- E. All the above

[View All Answers](#)

Question - 79:

Pick up the correct network for the activities of pouring concrete, erection of form work, removal of form work and curing of concrete from the following:

A:

- 1. Pouring of Concrete
- 2. Erection of form work
- 3. Curing of concrete
- 4. Removal of form work

B:

- 1. Erection of form work
- 2. Pouring of concrete
- 3. Curing of concrete
- 4. Removal of form work

C:

- 1. Removal of form work
- 2. Erection of form work
- 3. Pouring of concrete
- 4. Curing of concrete

D:

- 1. Pouring of concrete
- 2. Curing of concrete
- 3. Erection of form work
- 4. Removal of form work

Ans:

D:

- 1. Pouring of concrete
- 2. Curing of concrete
- 3. Erection of form work
- 4. Removal of form work

[View All Answers](#)

**Question - 80:**

Pick up the correct statement from the following:

- A. The float may be positive, zero or negative
- B. If the float is positive and the activity is delayed by a period equal to its total float, the completion of project is not delayed
- C. If the float of an activity is negative, delay in its performance is bound to delay the completion of project
- D. If the float of an activity is zero, the activity is critical and any delay in its performance will delay the whole project
- E. All the above.

Ans:

- E. All the above

[View All Answers](#)

Question - 81:

A Milestone chart:

- A. shows the inter-dependencies of various jobs
- B. depicts the delay of jobs, if any
- C. points outgoing ahead of schedule of jobs, if any
- D. none of these.

Ans:

- D. none of these

[View All Answers](#)

Question - 82:

Completion of an activity on CPM network diagram, is generally known:

- A. Event
- B. Node
- C. Connector
- D. All the above.

Ans:

- D. All the above

[View All Answers](#)

Question - 83:

Military organisation is known as:

- A. line organisation
- B. line and staff organisation
- C. functional organisation
- D. none of these

Ans:

- A. line organisation

[View All Answers](#)

Question - 84:

A dummy activity:

- A. is artificially introduced
- B. is represented by a dotted line
- C. does not consume time
- D. all the above

Ans:

- D. all the above

[View All Answers](#)

Question - 85:

A construction schedule is prepared after collecting:

- A. number of operations
- B. output of labor
- C. output of machinery
- D. quantity of various items
- E. all the above

Ans:

- E. all the above

[View All Answers](#)

Question - 86:

CPM is:

- A. synthesizing in concepts
- B. is built of activities oriented program
- C. is based on time estimate
- D. is used for repetitive works

E. all the above

Ans:

E. all the above

[View All Answers](#)

Question - 87:

Construction team means:

- A. an engineer
- B. an architect
- C. an owner
- D. a contractor
- E. all the above

Ans:

E. all the above

[View All Answers](#)

Question - 88:

Critical path lies along the activities having total float:

- A. positive
- B. negative
- C. zero
- D. same

Ans:

C. zero

[View All Answers](#)

Question - 89:

The performance of a specific task in CPM, is known:

- A. Dummy
- B. Event
- C. Activity
- D. Contract

Ans:

C. Activity

[View All Answers](#)

Question - 90:

Final technical authority of a project lies with:

- A. Assistant Engineer
- B. Executive Engineer
- C. Superintending Engineer
- D. Chief Engineer

Ans:

D. Chief Engineer
