## Research Media Manager Interview Questions And Answers Guide.

### Question - 1:

Explain Projector Lumens Measured?

#### Ans:

Lumens are extremely important when choosing a projector because you will want a bright, sharp image to be displayed. The brighter the image, usually the sharper the contrast will be. Lumens are extremely important due to the fact that projectors with lower Lumens require ambient lighting to be low. In addition, less lumens generally means the projector will need to be closer to the screen. These two factors have obvious consequences for many conference rooms, classrooms, lecture halls and home theater set ups.

### Question - 5:

How to view video files on the web site?

#### Ans:

There are two ways to view the online video clips. Because of variations in browsers and operating systems, both methods might not work for all individuals. However, one of the two methods should work if you have the Windows Media Player installed. 1. Click on the link to the video. Depending on what your plug-in settings are in your browser, Windows Media Player may launch and begin downloading the video clip. The video should begin to play after enough is downloaded for it to play smoothly. 2. Right click (PC) or click and hold (Mac) the link to the video. Choose "Save Target As.." (IE) or "Save Link As..." (Netscape) to save the file. Make sure that the correct file type is selected in the drop down list below the file name. After the file has been saved to your computer, double click on it to

launch it in Windows Media Player. If your computer is not set up to launch the player upon double clicking, first open Windows Media Player and then choose "File" and "Open" to load the video clip. Press the play button to begin playing.

**Question - 8:**

How to Copy Slides to Disk?

**Ans:**

If you have been enjoying photography for more than a few years, you probably have plenty of slides taken with analog cameras. Before digital photography, slides were a great way to view photos en masse. They were very small, making them light and portable and perfect for slide shows in homes, classrooms, and auditoriums. However, with the advent of digital photography and digital projectors, slides have lost their popularity and are slowly becoming obsolete.

**Question - 11:**

What are the WMV Files?

**Ans:**

WMV (Windows Media Video) is a generic name for video encoding solutions developed by Microsoft. The format is a part of the Windows Media framework that also includes formats like Windows Media Audio (WMA), Advanced Systems Format (ASF) and High Definition Photo (HDP). WMV files use the Microsoft container format and represent Microsoft's own version of MPEG-4 (Part 2) video encoding technology.
