### Question - 44:

Tell us how would you deal with a colleague at work with whom you seem to be unable to build a successful working relationship?

#### Ans:

This situation would certainly be unique to me. Ever since I can remember, I've had a knack for finding something in everyone that then becomes common ground for a friendship and/or good working relationship. Certainly there are all types of people, some less motivated to work in teams or simply unhappy in their jobs, but we're all people when you strip away titles and such - and it's at that base level in which I find a connection that results in some degree of rapport - even when few others can do so. For example, in my senior year of college, I was placed onto a team that had one member that the rest of the team disliked. This team member was kind of an outcast, but I knew we needed this full commitment to make the project work. Even though I was not the team leader, I took it upon myself to forge a connection - and discovered we had a mutual passion for horses. We did not end best friends or anything, but through our common interest, I was able to build enough rapport to connect and engage him as a key team member. There is always something that bonds us all together - it is just harder to find with some people than with others.

Explain me what would you do if the work of a subordinate or team member was not up to expectations?

**Ans:**

Luckily, I have quite a bit of previous team experience, and have faced this situation a few times in the past - so let me tell you how I've learned to handle the issue. The most important first step in dealing with an underperforming subordinate or team member is honest communications - talking with the person can lead to some surprising discoveries, such as the person not understanding the assigned tasks to being overwhelmed with the assignment. Once I discovered the problem, I could then forge a solution that usually solved the problem and allowed the work to move forward. So often in situations like this, the problem is some combination of miscommunications and unrealistic expectations.
