Question - 12:

Explain what is Contingent Liabilities?

Ans:

Contingent liability is an obligation, relating to a past transaction or other event or condition, that may arise in consequence, as a future event now deemed possible but not probable. Thus such liabilities as may arise in future are called contingent liabilities. For example: guarantee to a bank for loan advanced to a third party, possible penalties, fines and penalties payable to the government or income tax authorities etc. Future losses from natural calamities are not contingent liabilities. They are not recorded in books of account. They do not appear on the liabilities side of the balance sheet. They are shown by way of a footnote at the bottom of the balance sheet.

Question - 58:

Tell me what is convention of materiality?

Ans:

This convention proposes that while accounting for the various transactions, only those transactions will be considered which have material impact on profitability or financial status of the organization and other insignificant transactions will be ignored. In keeping with the principle of materiality, unimportant items are either let out or merged with other items. Sometimes, such items are shown as footnotes or in parentheses according to their relative importance.

[View All Answers](#)

Question - 59:

Explain me what is the difference between Cash discount and Trade discount?

Ans:

- * Cash discount is an allowance made by retailers to the customers for prompt payment. On the other hand, trade discount is an allowance made by the wholesaler dealer to retailers off the catalogue or invoice price. This allowance is made between purchasers and sellers engaged in the same class of trade.
- * Cash discount is always allowed or received when payment is made. Trade discount enables the retailers to sell the products to customers at catalogue or price list issued by the wholesaler.
- * Cash discount is an allowance in addition to the trade discount made by the seller to the buyer.
- * Cash discount is recorded in account books while trade discount is not shown separately.
- * The main purpose of allowing trade discount is to enable the retailers to sell the goods at list price while the purpose of providing cash discount is prompt payment by the debtor to the creditor.
