# Wire Drawer Operator Interview Questions And Answers Guide.

## Question - 1:

Tell me why do you want this job As Wire Drawer Operator?

### Ans:

Bad Answer: No solid answer, answers that don't align with what the job actually offers, or uninspired answers that show your position is just another of the many jobs they're applying for.

Good answer: The candidate has clear reasons for wanting the job that show enthusiasm for the work and the position, and knowledge about the company and job.

## Question - 2:

What can you offer us that someone else can not?

### Ans:

Bad Answer: Going negative - if the candidate starts trash talking other candidates, it's a sure sign of a bad attitude. Also, if they can't provide a solid answer, it may show that they lack thorough knowledge of the skills the job requires, and an understanding of where they fit in.

Good answer: The candidate can name specific skills, abilities or understandings they have that apply directly to the job that other candidates are unlikely to have, or are in short supply.

## Question - 3:

Explain me about a problem or disagreement you had with previous supervisor?

### Ans:

This question is trap. It is meant to see whether or not you'll speak poorly of an employer. No one wants to hire someone who's going to speak poorly of them down the road. Stay upbeat and positive - and most of all don't say anything negative about a previous employer.

## Question - 4:

What is your biggest weakness As Wire Drawer Operator?

### Ans:

No one likes to answer this question because it requires a very delicate balance. You simply can't lie and say you don't have one; you can't trick the interviewer by offering up a personal weakness As Wire Drawer Operator that is really a strength ("Sometimes, I work too much and don't maintain a work-life balance."); and you shouldn't be so honest that you throw yourself under the bus ("I'm not a morning person so I'm working on getting to the office on time.")

## Question - 5:

What is your typical way of dealing with conflict? Give me an example?

### Ans:

First, find out what the root of the problem is. Second, determine the best steps to remediation with the best possible outcome. Third, take action to put remediation plans in place.

## Question - 6:

How do you measure success?

### Ans:

**Question - 7:**

How would your boss and co-workers describe you?

**Ans:**

First of all, be honest (remember, if you get this job, the hiring manager will be calling your former bosses and co-workers!). Then, try to pull out strengths and traits you haven't discussed in other aspects of the interview As Wire Drawer Operator, such as your strong work ethic or your willingness to pitch in on other projects when needed.

**Question - 8:**

What motivates you?

**Ans:**

I've always been motivated by the challenge - in my last role, I was responsible for training our new recruits and having a 100% success rate in passing scores. I know that this job is very fast-paced and I'm more than up for the challenge. In fact, I thrive on it.

Describe a time when you put your needs aside to help a co-worker understand a task. How did you assist them? What was the result?

**Ans:**

The key is to show that the mentoring of a co-worker was first a higher priority than the task you had at hand (remember, you want to show that you focus on highest priority tasks first). Then, describe in detail how you helped them not only complete the task but learn to do it on their own. You want to teach them HOW to fish and not to simply fish for them.

What is your dream job?

If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."

We communicated differently and once we knew that, we began to work well together. I really believe that talking a problem through with someone can help solve any issue.

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

**Ans:**

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

What problems have you encountered at work?

**Ans:**

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.
