Failure Prevention Interview Questions And Answers Guide.

Question - 1:

What are types of failure?

Ans:

Failure can be differentially perceived from the viewpoints of the evaluators. A person who is only interested in the final outcome of an activity would consider it to be an Outcome Failure if the core issue has not been resolved or a core need is not met. A failure can also be a process failure whereby although the activity is completed successfully, a person may still feel dissatisfied if the underlying process is perceived to be below expected standard or benchmark.

1. Failure to anticipate
2. Failure to perceive
3. Failure to carry out a task
