Question - 1:

Tell us about a typical day at work. How does it start? What do you do?

Ans:

At the beginning of each day, I inspect the work site to make sure that it is hazard-free. Once the work site is secured, I verify that all tools and equipment are adequate in supply. As soon as the work orders are delivered, I provide workers with security guidelines and carry out drills. During the workday, it is my duty to monitor workers to ensure that they are working according to the enforced safety policies and that any problems or accidents are quickly addressed.

Question - 2:

What is more important to you money or success?

Ans:

First ask yourself that question before the interview - what are your priorities? Are money and success actual one in the same goal for you? If not, what's more important based on how do you define success?

View All Answers

Question - 3:

If you could do it all over again, how would you plan your academic studies differently?

Ans:

Whatever you do, just don't act bitter. A lot of times we wish we could change the past, but focus on the positive reasons and results of the decisions you already made.

View All Answers

Question - 4:

Are you willing to work in shifts?

Ans

If the job calls for shifts that vary, be ready to do that for your work. If you aren't open to that, then explain why and see if they can adjust it for you. *Yiew All Answers*

Question - 5:

What do you like to do?

Ans:

Discuss your passions As Compressor Station Engineer. Ideally if it's work related that's fantastic! If not, talk about your academic / extracurricular passions and WHY you enjoy them. For example: I love playing sports because of the team work aspect - it's fun winning together! (This example shows you're a team player)

View All Answers

Question - 6:

What's the last book you read?

Ans:

Try to talk about a book related to the industry, for example, if you're applying for a role related to business, cite a business book.

Question - 10:

Top 12 Stress Based Interview Questions As Compressor Station Engineer:

Ans:

Some jobs require employees to work under stress, and some interviewers just like to see how applicants handle stressful questions.

There are many questions designed for putting the interviewee into an awkward situation, or throwing them off, to see how they do under stress. Here are some samples.

- 1. How do you feel this interview is going As Compressor Station Engineer?
- 2. How would you handle undeserved criticism from a superior?
- 3. How many other jobs are you applying for?
- 4. What would you do if you saw a colleague stealing supplies or equipment?
- 5. What did you do when you had a boss you didn't get along with?
- 6. What would you do if a colleague took credit for your idea, and got a promotion?
- 7. Was the stress of your previous job too much for you?
- 8. What would you do if a colleague admitted to lying on their resume to get the job?
- 9. What would you do if a customer verbally insulted you in front of co-workers?
- 10. What would you change about the design of a baseball hat?
- 11. Why were you fired from your previous job As Compressor Station Engineer?
- 12. How successful do you think you've been so far?

Question - 15:

Top 11 Questions to Verify Experience and Credentials As Compressor Station Engineer:

Ans.

Sometimes people want a job a little too bad - and they may fudge their credentials and experience a bit.

If you've run into this problem, are worried about it, or have credentials and experience that are absolutely essential, you may need to ask a few verification questions. If you are a candidate, you should review your resume and make sure you know all the key points, and that nothing has been misconstrued.

- 1. What grades did you get in college?
- 2. What were your responsibilities when you worked in job x?
- 3. How many people were on your team at your last job?
- 4. What will your previous manager/supervisor say when I ask where you needed to improve?
- 5. What was your beginning and ending salary at job x?
- 6. What were your beginning and ending titles at job x?
- 7. Are you eligible for rehire at job x?
- 8. What tools are necessary for performing job x?
- 9. Describe to me how you would perform [x typical job task].
- 10. What was the focus of your thesis?
- 11. When did you leave company x?

View All Answers

Question - 16:

Why did you leave your last job As Compressor Station Engineer?

Ans:

Regardless of why you left your last job make sure to stay positive. Always smile and focus on the positive reason such you were seeking the opportunity to expand your career opportunities, your interest in working with a new firm that provided greater opportunity, you desired to work in a new location, etc. Don't reference previous job problems or differences with management that caused you to leave. If you stay positive, your answer may help you. If you're negative, you will likely decrease your chances of getting the job for which you're interviewing.

View All Answers

Question - 17:

Why are you interested in working As Compressor Station Engineer for [insert company name here]?

Ans:

Bad Answer: They don't have a good reason, or provide a generic answer, "I think it represents a great opportunity."

Good answer: One that shows they've done research on the company, and are truly excited about specific things they can do at the job. This not only shows enthusiasm for the work and basic preparation skills, gives you clues about the cultural fit.

View All Answers

Question - 18:

How would your boss and co-workers describe you?

Ans:

First of all, be honest (remember, if you get this job, the hiring manager will be calling your former bosses and co-workers!). Then, try to pull out strengths and traits you haven't discussed in other aspects of the interview As Compressor Station Engineer, such as your strong work ethic or your willingness to pitch in on other projects when needed.

View All Answers

Question - 19:

Why do you want this job As Compressor Station Engineer?

Ans:

This question typically follows on from the previous one. Here is where your research will come in handy. You may want to say that you want to work for a company that is Global Guideline, (market leader, innovator, provides a vital service, whatever it may be). Put some thought into this beforehand, be specific, and link the company's values and mission statement to your own goals and career plans.

Question - 22:

How do you continue learning on a daily basis? Why is continuous improvement necessary As Compressor Station Engineer?

Ans:

You can learn on the job, through books and magazines, through social networks, blogs, seminars, mentors and so on. Continuous improvement is important because the one thing in life that is constant is change. And you have to continue to push yourself day in and day out to be the best.

View All Answers

Question - 23:

What differentiates this company from other competitors?

Ans:

Be positive and nice about their competitors but also discuss how they are better than them and why they are the best choice for the customer. For example: "Company XYZ has a good product, but I truly believe your company has a 3-5 year vision for your customer that aligns to their business needs."

View All Answers

Question - 24:

Why were you fired?

Ans:

OK, if you get the admittedly much tougher follow-up question as to why you were let go (and the truth isn't exactly pretty), your best bet is to be honest (the job-seeking world is small, after all). But it doesn't have to be a deal-breaker. Share how you've grown and how you approach your job and life now as a result. If you can position the learning experience as an advantage for this next job, even better.

View All Answers

Question - 25:

What are your thoughts on social media for this role?

Ans:

Without a doubt, social media is becoming more and more pervasive in our jobs. You should stress that social media is not appropriate for personal use at work. However, if the company embraces social media in certain departments (for example marketing), then you may want to discuss how you could use it for work (as long as it applies to your role).

View All Answers

Question - 26:

How well do you multi-task?

Ans:

Multi-tasking is an important part of most jobs. You want to show that you're good at it but not overwhelmed with it. So discuss just a few things you can multi-task well on - for example: "I'm good at multi tasking between work email and working on projects As Compressor Station Engineer and the reason it because I'm good at prioritizing my work emails.

View All Answers

Question - 27:

What is it about this position As Compressor Station Engineer that attracts you the most?

Ans

Use your knowledge of the job description to demonstrate how you are a suitable match for the role.

View All Answers

Question - 28:

What's a time you disagreed with a decision that was made at work?

Ans:

Everyone disagrees with the boss from time to time, but in asking this interview question As Compressor Station Engineer, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong,". Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

View All Answers

Question - 29:

How do you take "No" for an answer?

Ans:

You want to be persistent enough to understand why someone is saying no so that you could potentially convince them otherwise with a sound reason. However, if they are still saying "no" to you, then you need to humbly accept their position and move on.

View All Answers

Question - 30:

What is the most important quality a supervisor should have?

Ans:

The ability to inspire / lead a team towards one common vision.

View All Answers

Question - 31:

How would you feel about working for someone who knows less than you As Compressor Station Engineer?

Δns.

The reality is, the majority of the time someone is in a management/leadership position is because of their experience and past success. So they probably possess at least a unique set of knowledge from you. So you'll want to learn from them as much as possible. If it's not the case, then discuss how you would look for mentors in different departments to help your personal career development.

View All Answers

Question - 32:

How do you handle your anger?

Ans:

I don't get angry very easily but in the rare occasion that I do, I hold it in and act as though nothing is wrong.

View All Answers

Question - 33:

How did you find out about this job As Compressor Station Engineer? What do you know about the job?

Ans:

Possible ways to find out about the job:

Online website listing, friend, professional referral, mentor, career fairs, networking events. You should know about the roles and responsibilities of the job and what they're looking for. Make sure you read up on that online beforehand or ask the person that referred you.

View All Answers

Question - 34:

Why should we select you not others?

Ans:

Here you need to give strong reasons to your interviewer to select you not others. Sell yourself to your interviewer in interview in every possible best way. You may say like I think I am really qualified for the position. I am a hard worker and a fast learner, and though I may not have all of the qualifications that you need, I know I can learn the job and do it well."

View All Answers

Question - 35:

How would you estimate the weight of the Chrysler building?

Ans:

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

View All Answers

Question - 36:

How important is a positive attitude to you?

Ans

Incredibly important. I believe a positive attitude is the foundation of being successful - it's contagious in the workplace, with our customers, and ultimately it's the difference maker.

View All Answers

Question - 37:

How do you feel about technology at the workplace in general?

Δns:

It's a great enabler for us to collaborate better as a team, for us to reach customers more efficiently and frequently and I believe it can help any company become more efficient, leaner, and more productive.

View All Answers

Question - 38:

Describe what a bad work environment would look like to you As Compressor Station Engineer?

Ans:

There could be a multitude of things to discuss here: Business ethics (wrongdoing), inconsiderate teammates, non-supportive management, a product that does not do

what you're promising customers and so forth.

View All Answers

Question - 39:

What do you know about this company?

Ans:

Research the company on Google by searching recent news (to remain current on them) and their website. Make sure you understand their products / services, vision, competitive differentiators, and work culture.

View All Answers

Question - 40:

If someone had to say something negative to you, what would they say?

Anc.

Again, be honest about sharing a story here about someone who may not have gotten along with you in the office here and explain how you were able to fix that relationship or change your attitude/action to be a better person / coworker.

View All Answers

Question - 41:

Why should the we hire you as this position As Compressor Station Engineer?

Ans:

This is the part where you link your skills, experience, education and your personality to the job itself. This is why you need to be utterly familiar with the job description as well as the company culture. Remember though, it's best to back them up with actual examples of say, how you are a good team player.

View All Answers

Question - 42:

How many square feet of pizza are eaten in the United States each month?

Ans:

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

View All Answers

Question - 43:

When was the last time something upset you at work? What did you do?

Ans

Almost everyone has an emotional moment related to work at some point - you're not alone. The key is to learn why you reacted that way and to focus not on the problem but HOW to resolve it. Another key component is to be aware of your emotional response so that you can learn to control it in the future in a calm way.

View All Answers

Question - 44:

If you had to choose one, would you consider yourself a big-picture person or a detail-oriented person?

Ans:

Both are important. You need to stress that. However, if you could only choose one, ask yourself As Compressor Station Engineer - do you like to be "in the weeds" with your work, or do you want to be the one painting the vision?

View All Answers

Question - 45:

How would you define success?

Δne-

Success is defined differently for everybody. Just make sure the parameters are defined by you with regards to work life balance, financial gain, career growth, achievements, creating meaningful work / products and so forth. If you can clearly articulate what it means to you that is a strong answer.

View All Answers

Question - 46:

How would you observe the level of motivation of your subordinates?

Ans:

Choosing the right metrics and comparing productivity of everyone on daily basis is a good answer, doesn't matter in which company you apply for a supervisory

role.

View All Answers

Question - 47:

What do you know about this department?

Ano.

One good way to find out about the department is to try to "informally" interview the existing employees over coffee (outside of the office) if possible. It's hard if you don't have any connections there, but if you do a great way to learn about it. Other than that, it's often hard to learn about the department so you can turn the table back on them by asking questions to learn about it.

View All Answers

Question - 48:

Do you have good computer skills?

Ans:

It is becoming increasingly important for medical assistants to be knowledgeable about computers. If you are a long-time computer user with experience with different software applications, mention it. It is also a good idea to mention any other computer skills you have, such as a high typing rate, website creation, and more.

View All Answers

Question - 49:

Explain me about a time when you reached a goal within a tight deadline?

Ans:

I work well under pressure to meet deadlines without jeopardizing the quality of my work. I have always worked in a fast pace environment where we are constantly under pressure to achieve best results within a time frame.

View All Answers

Question - 50:

What techniques and tools do you use to keep yourself organized As Compressor Station Engineer?

Ans:

Utilizing a calendar, having a notebook with your "to do" list, focusing on your top 3 priorities each and every day, utilizing a systematic way of storing documents on your computer (like box.net)

View All Answers

Question - 51:

Rate yourself on a scale of 10?

Ans:

If you truly believe you're a 10, you better be able to explain why with examples / stories. If you believe you're a great contributor and have room to grow, say 8 or 9. If you're below that, explain what you would do to improve yourself to get the ranking you believe you can be.

View All Answers

Question - 52:

How have you changed in the last five years?

Ans:

All in a nutshell. But I think I've attained a level of personal comfort in many ways and although I will change even more in the next 5-6 years I'm content with the past 6 and what has come of them.

View All Answers

Question - 53:

Are you planning to continue your studies and training As Compressor Station Engineer?

Ans:

If asked about plans for continued education, companies typically look for applicants to tie independent goals with the aims of the employer. Interviewers consistently want to see motivation to learn and improve. Continuing education shows such desires, especially when potentials display interests in academia potentially benefiting the company.

Answering in terms of "I plan on continuing my studies in the technology field," when offered a question from a technology firm makes sense. Tailor answers about continued studies specific to desired job fields. Show interest in the industry and a desire to work long-term in said industry. Keep answers short and to the point, avoiding diatribes causing candidates to appear insincere.

View All Answers

Question - 54:

What kind of salary do you need As Compressor Station Engineer?

Ans:

This is a loaded question and a nasty little game that you will probably lose if you answer first. So, do not answer it. Instead, say something like, that's a tough question. Can you tell me the range for this position? In most cases, the interviewer, taken off guard, will tell you. If not, say that it can depend on the details of the job. Then give a wide range.

View All Answers

Question - 55:

What schedule do you hope to work? Are you willing to work extra hours?

Ans.

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.

View All Answers

Question - 56:

What was the biggest professional risk you have taken and what was the outcome?

Anc.

First discuss how you weighed the pros and cons of the risk and the results you'd believe you could achieve. Then discuss the action plan you put into place for it and outline that step by step. Then discuss the outcome and if it wasn't optimal talk about what you would do differently in hindsight.

View All Answers

Question - 57:

What do you look for in terms of culture -- structured or entrepreneurial?

Ans:

A good answer is to discuss the importance of having both elements in a company As Compressor Station Engineer. Structure is good to maintain a focus on priorities and making sure people are productive but having an entrepreneurial spirit can help cultivate new ideas that can truly help the company.

View All Answers

Question - 58:

How do you evaluate your ability to handle conflict?

Ans:

I pride myself on being a good problem solver. Through my previous job and management positions I have faced numerous conflicts in different situations, and my experiences have helped me to hone my issue resolution skills. I believe that it is important to get to and address the root of the issue, in a respectable manner.

View All Answers

Question - 59

What would your first 30, 60, or 90 days look like in this role As Compressor Station Engineer?

Ans:

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

View All Answers

Question - 60:

What is your greatest weakness As Compressor Station Engineer? What are you doing to improve it?

Ans:

I believe my biggest weakness As Compressor Station Engineer is wanting to help anyone I can help. What I mean is I am willing to take on task that are not my job. I want to learn all I can. However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

View All Answers

Question - 61:

What does "thinking outside the box" mean to you?

Ans

It means not doing things exactly the same way as everyone else. You've got to challenge the status quo and bring something new to the business.

View All Answers

Question - 62:

What do you know about the company?

Ans:

Any candidate can read and regurgitate the company's "About" page. So, when interviewers ask this, they aren't necessarily trying to gauge whether you understand the mission-they want to know whether you care about it. Start with one line that shows you understand the company's goals, using a couple key words and phrases from the website, but then go on to make it personal. Say, "I'm personally drawn to this mission because..." or "I really believe in this approach because..." and share a personal example or two.
