## Engineering Technician Chemical Interview Questions And Answers Guide.

### Question - 1:

Why did you leave your last job As Engineering Technician Chemical?

#### Ans:

Regardless of why you left your last job make sure to stay positive. Always smile and focus on the positive reason such you were seeking the opportunity to expand your career opportunities, your interest in working with a new firm that provided greater opportunity, you desired to work in a new location, etc. Don't reference previous job problems or differences with management that caused you to leave. If you stay positive, your answer may help you. If you're negative, you will likely decrease your chances of getting the job for which you're interviewing.

**Question - 15:**

Explain what are your weaknesses As Engineering Technician Chemical?

**Ans:**

Red flags: This is the peanut butter to the previous question's jelly. Again, everyone should expect it, so it's a bad sign if someone seems totally unprepared, or gives a stock answer like, "I'm a perfectionist." Also, of course, candidates crazy enough to blurt out some horrible personality trait should go in the red flagged pile.

Good answer: Candidates should talk about a real weakness they've been working on improving. For instance, they're not good at public speaking, but they've been taking a course to help them improve. Or maybe they feel that they're easily distracted when working online, but have installed software that helps them stay on task. Answers like these show a desire for improvement, self awareness and discipline.

**Question - 38:**

Why are manhole covers round?

**Ans:**  
This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way. The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

**Question - 70:**

What are your salary expectations As Engineering Technician Chemical?

**Ans:**

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and you're goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

**Question - 78:**

How would you rate your communication and interpersonal skills for this job As Engineering Technician Chemical?

**Ans:**

These are important for support workers. But they differ from the communication skills of a CEO or a desktop support technician. Communication must be adapted to the special ways and needs of the clients. Workers must be able to not only understand and help their clients, but must project empathy and be a warm, humane presence in their lives.
