Business Administration (MBA) Interview Questions And Answers Guide.

Question - 1:

Many argue that art cannot be defined. Art is often considered the process or product of deliberately arranging elements in a way that appeals to the senses or emotions. It encompasses a diverse range of human activities, creations and ways of expression, including music, literature, film, sculpture and paintings.

The passage best supports the statement that:

- 1) Art is defined as a form of human expression of a creative nature.
- 2) Artist realizes his dreams through his artistic creation.
- 3) Art is governed by external rules and conditions.
- 4) Art requires that nothing shall attain the work except through art itself.

Ans:

- 1) Art is defined as a form of human expression of a creative nature.

Question - 108:

Who is the right personality which fit to enter the field of business administration?

Ans:

You'll need to be the right personality fit to enter the field of business administration, so it's important to learn whether this is the career for you before you jump into the time and expense of a school program. If you're tech-savvy, are highly organized, goal-oriented and an enterprising team player, this might be the field for you.

[View All Answers](#)

Question - 109:

How does the admissions process worked?

Ans:

Different schools work in different ways. But you'll need to be aware of dates and schedules, and make sure your forms and fees are sent in and paid on time. All schools have an admissions office with advisers who can help, so be sure to use their services.

[View All Answers](#)

Question - 110:

How to apply for financial aid?

Ans:

Financial aid is available from a variety of sources. Government financial aid is the most common, but before you can be considered for aid, you'll need to fill out the Free Application.

Other types of financial aid include scholarships, grants, private loans and plus loans.

[View All Answers](#)

Question - 111:

What to expect after selection?

Ans:

Once you've selected the schools you're interested in and submitted your information, you'll receive a thank you from the schools you chose. You'll be contacted by these schools either by email or telephone. The adviser's who call you will ask you about the programs you're interested in, when you would like to start school, and talk about financial aid options, among other things. Feel free to ask questions!

[View All Answers](#)

Question - 112:

What to expect after submitted a request for information to a school?

Ans:

First, you'll need to make sure you fill out the form correctly. For example, if your completed education level is high school graduate, you would need to complete a bachelor's program before applying to a master's degree program. So if you enter "high school graduate" and request master's degree information, your request may fail. Be sure to request information for the correct level of education you plan to pursue.

[View All Answers](#)

Question - 113:

What is an MBA degree equips?

Ans:

Students can also expect their program to include an introduction to core business subjects like accounting, finance, information technology and marketing.

An MBA degree equips graduates with the practical skills and business expertise to hold advanced leadership positions across industries. Open to students from a wide range of academic backgrounds, MBA degree programs typically include comprehensive training in management theory and application, technology and communication.

[View All Answers](#)

What exactly does the business administration program involved?

Ans:

As its name implies, This Bachelor's program will familiarize you with business theories, while simultaneously helping you to develop your business skills and analytical thinking. It covers key business disciplines like finance, staffing, purchasing, development, strategy and marketing - all in the specific context of cross-border business and multinational corporations.

[View All Answers](#)

Question - 117:

Is management a science or an art field?

Ans:

At a first glance it seems easier to accept administration as an art. It is just the administration of firm's affairs and for most part it does not follow the laws of Science application. Therefore we cannot list it into a respectable category of scientific subjects.

[View All Answers](#)

Question - 118:

What is the difference between administration and management?

Ans:

An administration department is one who makes policies for the firm. His job is more of thinking but the management department is to make sure these policies are followed strictly.

[View All Answers](#)

Question - 119:

List the important roles of business administrator in a firm?

Ans:

The business administrator understands business operations and processes. A day-to-day role may involve accounting, finance, marketing, economics, statistics, human resources and decision-making. In a small organization, the business administrator might manage administrative support services; large organizations may have several layers of administrative managers who specialize in different areas from human resources to facilities management.

[View All Answers](#)

Question - 120:

What accomplishments have given you the most satisfaction in your life?

Ans:

My satisfactory accomplishment is having been certified as a System Engineer.

[View All Answers](#)

Question - 121:

What exactly do you look for in a job?

Ans:

Main thing is job satisfaction without it we cannot work anywhere and if we give priority for only money we cannot do our job perfectly.

[View All Answers](#)

Question - 122:

Can you work well under deadlines or pressure?

Ans:

Yes I can work. But only thing is you must analyze all problems and its important. Based on you must give priority to those problems. If you follow this one can work under deadlines and pressures

[View All Answers](#)

Question - 123:

What is your greatest strength?

Ans:

Greatest strength which would I like is my confidence as well as self-motivation and Hard work flexibility and co-ordination with my team members.

[View All Answers](#)

Question - 124:

Tell me about a time when you failed to meet a deadline. What were the repercussions?

Ans:

Once I am not able to complete my task within the time period because of lack of information from client side. It was a very big issue on that time. But only thing I did was the mail communication with client. That was helped from that issue. They gave new time limit with proper information. So we must have record for all to face any problem.

[View All Answers](#)

**Question - 125:**

Have you ever worked with someone that you did not get along with as part of a team? How did you Handle that?

Ans:

I have someone who reports to me who I absolutely despise. We get along from a business perspective but from a personal level I just dont like him. Ive made my dislike for him my problem and not his.

For example when he makes comments that are inappropriate for work I remind him of our policies and how important it is to be careful with what and how he says things. I also try to re-enact the scene in my head as if someone else on the team who I do like did or said the same thing. If my reaction is the same as for the person I do like then I feel like Im handling the situation with the guy I dont like fairly.

I keep the conversation on a business level. I dont ask him how his vacation was so I dont have to hear complaints about his kids or what he fought about with his wife. I answer fine when he asks about my weekend so I dont listen to him judge how I live my life.

[View All Answers](#)

Question - 126:

What is your greatest weakness?

Ans:

My greatest weakness is that I trust some one very quickly & I can make friendship with some one very easily.

[View All Answers](#)

Question - 127:

Why did you choose Business Administration career?

Ans:

If you take any field that is depends on its own business or other business. You cant imagine the world with out business.
