Oracle Forms 4.0 Interview Questions And Answers Guide.

Question - 1:

Explain What is the content view and stacked view?

Ans:

A content view is the "Base" view that occupies the entire content pane of the window in which it is displayed. A stacked view differs from a content canvas view in that it is not the base view for the window to which it is assigned

[View All Answers](#)

Question - 14:

Explain What is a window?

Ans:

A window, by itself, can be thought of as an empty frame. The frame provides a way to interact with the window, including the ability to scroll, move, and resize the window. The content of the window i.e. what is displayed inside the frame is determined by the canvas View or canvas-views displayed in the window at run-time.
