**Question - 14:**

Where do you see yourself in five years In Knoah Solutions?

Ans:

If asked this question, be honest and specific about your future goals, but consider this:

A hiring manager wants to know

* a) if you've set realistic expectations for your career,

* b) if you have ambition (a.k.a., this interview isn't the first time you're considering the question), and

* c) if the position aligns with your goals and growth. Your best bet is to think realistically about where this position could take you and answer along those lines. And if the position isn't necessarily a one-way ticket to your aspirations?

It's OK to say that you're not quite sure what the future holds, but that you see this experience playing an important role in helping you make that decision.

Question - 15:

Why are manhole covers round?

Ans:

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to "solve" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

Also, of course, candidates crazy enough to blurt out some horrible personality trait should go in the red flagged pile.

Or maybe they feel that they're easily distracted when working online, but have installed software that helps them stay on task.
