Project Management Interview Questions And Answers Guide.

Question - 1:

How do you handle stress as a Project Manager?

Ans:

I'm not the type of person that becomes stressed very easily. However, if in an extreme circumstance I did start to become stressed, I would look to the cause of it and attempt to identify a solution. I would certainly not be afraid to look to others for their input and assistance. In a working environment I think stress comes around from pressurized situations. In such cases the best solution is often one of situation management until the crisis abates.

I hardly ever get stressed; however, I do encounter different kinds of challenges. The recipe for me to overcome those challenges is to get to the bottom of the problem and deal with it immediately before it becomes a disaster.

Question - 3:

Explain What motivates you?

Ans:

A little appreciation for a successfully completed work. If failed in that task, I am motivated to do it better than ever. If completed successfully, the success motivates me to go in for a tougher project/work which is a new challenge for me. As it is, winning challenges is the spirit in me.

1. When I am able to make significant positive contribution in a challenging situation, thereby helping in the overall success of the Task / Project.
2. When organization shows confidence in me by choosing me amongst many for a tough and challenging assignment

Question - 4:

Explain What was the most stressful aspect of your last project and how did you deal with it?

Ans:

Very few projects stay on schedule, under budget and with no major problems. The ability to handle stressful situations is key to successful project management. Limited resources and time, changing demands and new circumstances all result in stress on the project manager.

Show how you are able to stay calm under pressure and plan to reduce stress focusing on aspects such as your people management, technology management, risk management and expectation management.

Question - 7:

What is MPMM?

Ans:

MPMM is a Project Management Methodology which provides a complete "framework" for managing projects. This framework provides you with a step-by-step walkthrough of the phases, activities and tasks to be undertaken to complete a project. By following the Project Life Cycle framework for your project, you will greatly enhance your chances of project success.
