Financial Management Interview Questions And Answers Guide.

Question - 1:

What is alpha of stocks?

Ans:

The meaning is not very different in the world of investing. Most people who invest in stocks do so because they want a return--this is the purpose of investing. Alpha is the term given to the extra return. Alpha measures the risk-adjusted return for a given asset. Knowing the value of an asset that is driven by market forces means nothing without gauging the risk associated with owning the asset over a given time period. The best investment is a stock or asset with a high return and limited risk.

Question - 2:

Explain MECHANISM OF ADR?

Ans:

An American depository receipt (ADR) is a negotiable security that represents the underlying securities of a non-U.S. company that trades in the US financial markets. Individual shares of the securities of the foreign company represented by an ADR are called American depository shares (ADSs).
