Electro-Mechanical Technician (E-M Technician) Interview Questions And Answers Guide.

Question - 1:

Can you tell me a little about yourself?

Ans:

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Electro-Mechanical Technician (E-M Technician). Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

[View All Answers](#)

Question - 2:

Tell me a difficult situation you have overcome in the workplace?

Ans:

Conflict resolution, problem solving, communication and coping under pressure are transferable skills desired by many employers As Electro-Mechanical Technician (E-M Technician).

Answering this question right can help you demonstrate all of these traits.

* Use real-life examples from your previous roles that you are comfortable explaining

* Choose an example that demonstrates the role you played in resolving the situation clearly

* Remain professional at all times - you need to demonstrate that you can keep a cool head and know how to communicate with people

[View All Answers](#)

Question - 3:

Why are you leaving last job?

Ans:

Although this would seem like a simple question, it can easily become tricky. You shouldn't mention salary being a factor at this point As Electro-Mechanical Technician (E-M Technician). If you're currently employed, your response can focus on developing and expanding your career and even yourself. If you're current employer is downsizing, remain positive and brief. If your employer fired you, prepare a solid reason. Under no circumstance should you discuss any drama or negativity, always remain positive.

[View All Answers](#)

Question - 4:

How do you imagine a typical day of an employee in our company As Electro-Mechanical Technician (E-M Technician)?

Ans:

Just do not say that you imagine to only walk and watch what people do. Rather try to show them your attention to details and proactive attitude to job. Mention that you would try to observe the problems, weaknesses as well as opportunities to improve the results and take measures according to it.

[View All Answers](#)

Question - 5:

How would you describe your approach to Electro-Mechanical Technician (E-M Technician)?

Ans:

In more general terms, a question such as this gives a candidate the opportunity to talk about their professional philosophy and skills. While the question is general in nature, the best answers are usually quite specific, picking one or two points and exemplifying them with instances from personal history.

[View All Answers](#)

Question - 6:

Suppose there are three light switches outside a room. Inside is a single light bulb, controlled by one of the three switches. You need to determine which switch

operates the bulb. You can turn the switches on and off as many times as you wish (they are all off to begin with), but may only enter the room once. There is no one there to help you. The door to the room is closed, and there are no windows, so you cannot see inside. How can you discover which switch operates the bulb?

Ans:

Do the following steps:

* 1. Turn ON two switches, and leave one OFF.

* 2. Wait a few minutes.

* 3. Turn one switch from ON to OFF. One is now ON and two are OFF

* 4. Enter the room. - If the light is ON, it is controlled by the switch you left ON. - If the light bulb is OFF, touch it. If it is warm it is controlled by the switch you turned ON and OFF. If it is cold, it is controlled by the switch you never turned on.

[View All Answers](#)

Question - 7:

What are your salary requirements As Electro-Mechanical Technician (E-M Technician)?

Ans:

The #1 rule of answering this question is doing your research on what you should be paid by using site like Global Guideline. You'll likely come up with a range, and we recommend stating the highest number in that range that applies, based on your experience, education, and skills. Then, make sure the hiring manager knows that you're flexible. You're communicating that you know your skills are valuable, but that you want the job and are willing to negotiate.

[View All Answers](#)

Question - 8:

What challenges are you looking for in this position?

Ans:

A typical interview question to determine what you are looking for your in next job, and whether you would be a good fit for the position being hired for, is "What challenges are you looking for in a position As Electro-Mechanical Technician (E-M Technician)?" The best way to answer questions about the challenges you are seeking is to discuss how you would like to be able to effectively utilize your skills and experience if you were hired for the job. You can also mention that you are motivated by challenges, have the ability to effectively meet challenges, and have the flexibility and skills necessary to handle a challenging job. You can continue by describing specific examples of challenges you have met and goals you have achieved in the past.

[View All Answers](#)

Question - 9:

What do you consider to be your weaknesses?

Ans:

What your interviewer is really trying to do with this question-beyond identifying any major red flags-is to gauge your self-awareness and honesty. So, "I can't meet a deadline to save my life As Electro-Mechanical Technician (E-M Technician)" is not an option-but neither is "Nothing! I'm perfect!" Strike a balance by thinking of something that you struggle with but that you're working to improve. For example, maybe you've never been strong at public speaking, but you've recently volunteered to run meetings to help you be more comfortable when addressing a crowd.

[View All Answers](#)

Question - 10:

What is your greatest failure As Electro-Mechanical Technician (E-M Technician), and what did you learn from it?

Ans:

When I was in college, I took an art class to supplement my curriculum. I didn't take it very seriously, and assumed that, compared to my Engineering classes, it would be a walk in the park. My failing grades at midterm showed me otherwise. I'd even jeopardized my scholarship status. I knew I had to get my act together. I spent the rest of the semester making up for it, ended up getting a decent grade in the class. I learned that no matter what I'm doing, I should strive to do it to the best of my ability. Otherwise, it's not worth doing at all.

[View All Answers](#)

Question - 11:

Explain an occasion when you had to adapt in the face of a difficult situation?

Ans:

One of the most useful interview tactics is to remain positive about your work and achievements. This question lets the candidate draw on their own personal history to show how they have been positive and successful in the face of difficulties. Choose a specific occasion to describe, rather than dealing with generic platitudes.

[View All Answers](#)

Question - 12:

Explain me about a time when you reached a goal within a tight deadline?

Ans:

I work well under pressure to meet deadlines without jeopardizing the quality of my work. I have always worked in a fast pace environment where we are constantly under pressure to achieve best results within a time frame.

[View All Answers](#)

Question - 13:

Have you got any questions?

Ans:

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or

pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

[View All Answers](#)

Question - 14:

How do you handle stressful situations?

Ans:

By remaining calm, weighing out all my options and executing a plan to get the situation resolve .

[View All Answers](#)

Question - 15:

How many square feet of pizza are eaten in the United States each month?

Ans:

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

[View All Answers](#)

Question - 16:

How much do you expect to get paid As Electro-Mechanical Technician (E-M Technician)?

Ans:

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[View All Answers](#)

Question - 17:

What does quality work mean to you?

Ans:

Quality work to be is about doing work to the require or set standard, which is very important when it comes to warehouse operations.

[View All Answers](#)

Question - 18:

What schedule do you hope to work? Are you willing to work extra hours?

Ans:

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.

[View All Answers](#)

Question - 19:

What would your first 30, 60, or 90 days look like in this role As Electro-Mechanical Technician (E-M Technician)?

Ans:

Start by explaining what you'd need to do to get ramped up. What information would you need? What parts of the company would you need to familiarize yourself with? What other employees would you want to sit down with? Next, choose a couple of areas where you think you can make meaningful contributions right away. (e.g., "I think a great starter project would be diving into your email marketing campaigns and setting up a tracking system for them.") Sure, if you get the job, you (or your new employer) might decide there's a better starting place, but having an answer prepared will show the interviewer where you can add immediate impact-and that you're excited to get started.

[View All Answers](#)

Question - 20:

How do you keep each member of the team involved and motivated?

Ans:

Many managers mistakenly think that money is the prime motivator for their employees. However, according to surveys by several different companies, money is consistently ranked five or lower by most employees. So if money is not the best way to motivate your team, what is?

Employees' three most important issues according to employees are:

* Respect

- * A sense of accomplishment
- * Recognition

[View All Answers](#)

Question - 21:

What problems have you encountered at work?

Ans:

Wow, do we have problems! Where do I begin? Well, most of the problems are internal, just people not working well with each other. I have one person on our team who is a real problem, but it seems like management is afraid to do anything about it. So we all end up having to do extra work to cover for this person, who just doesn't work. We all say that he's retired in place. I think he's just holding on until retirement in a couple years. But he's a real problem. I complain about it--a lot--but nothing ever seems to get done. I've even written negative reviews about the person, hoping he will get canned, but it doesn't happen. I can't wait for him to retire.

[View All Answers](#)

Question - 22:

What was the most important task you ever had?

Ans:

There are two common answers to this question that do little to impress recruiters:

* 'I got a 2.1'

* 'I passed my driving test'

No matter how proud you are of these achievements, they don't say anything exciting about you. When you're going for a graduate job, having a degree is hardly going to make you stand out from the crowd and neither is having a driving licence, which is a requirement of many jobs.

[View All Answers](#)

Question - 23:

What do you know about our company?

Ans:

You always want to make sure that you're pretty familiar with the company that you're interviewing with. Nothing looks worse than a candidate who knows nothing about the company they say they're interested in working for. Find out everything you can about the company, its culture and its goals. You will also want to know how the company is positioned in its market as well as who its major competitors are.

[View All Answers](#)

Question - 24:

Do you know anyone that works with our company?

Ans:

Sometimes companies have policies relating to the hiring of individuals related to current company employees. If you are related to anyone working for the company make sure you're aware of company policies before you enter the interview. If you have a friend or acquaintance working for the company make sure have good relationship with this individual before mentioning them.

[View All Answers](#)

Question - 25:

How long do you want to work for us if we hire you?

Ans:

Here being specific is probably not the best approach. You may consider responding, "I hope a very long time." Or "As long as we're both happy with my performance."

[View All Answers](#)

Question - 26:

If you had enough money to retire would you?

Ans:

Just be honest. If you would retire then say so. But since you can't retire, and the interviewer already knows this, simply answer that since you can't this is type of work you prefer doing. However, if you wouldn't retire if you had the money then explain why. Work is an important element of happiness for most people and many won't retire even when they can.

[View All Answers](#)

Question - 27:

Are you able to relocate if required?

Ans:

Be completely honest and thoughtful with this one. You don't want to wake up one to find out that you're moving to a new city or state and it may be a major factor in your eligibility for employment. But again, if you don't want to move then the job probably isn't for you.

[View All Answers](#)

Question - 28:

Why do you want to leave your current company As Electro-Mechanical Technician (E-M Technician)?

Ans:

Bad Answer: Complaining about or blaming their former job, boss or colleagues. Also, having no good reason.

Good answer: One that focuses on the positives about why the job they're applying for offers them better learning or career opportunities, chances for advancement, aligns more closely to their long term goals, or is a better fit for them.

[View All Answers](#)

Question - 29:

Tell us something about yourself?

Ans:

Bad Answer: Candidates who ramble on about themselves without regard for information that will actually help the interviewer make a decision, or candidates who actually provide information showing they are unfit for the job.

Good answer: An answer that gives the interviewer a glimpse of the candidate's personality, without veering away from providing information that relates to the job. Answers should be positive, and not generic.

[View All Answers](#)

Question - 30:

You have a project due in one hour but a more important emergency that affects business needs to be fixed immediately, what do you do?

Ans:

Focus on the issue that impacts the business most first.

[View All Answers](#)

Question - 31:

Give me an example of a time when you were able to successfully communicate with another person even when that individual may not have personally liked you (or vice versa). How did you handle the situation? What obstacles or difficulties did you face? How did you deal with them?

Ans:

First, the key is to state the differences in personality to give the interviewer some background. Second, you want to discuss how that was affecting the situation. Third, show how you were able to adapt to the way the person wanted to be communicated with to achieve your goals

[View All Answers](#)

Question - 32:

Describe a time when you put your needs aside to help a co-worker understand a task. How did you assist them? What was the result?

Ans:

The key is to show that the mentoring of a co-worker was first a higher priority than the task you had at hand (remember, you want to show that you focus on highest priority tasks first). Then, describe in detail how you helped them not only complete the task but learn to do it on their own. You want to teach them HOW to fish and not to simply fish for them.

[View All Answers](#)

Question - 33:

Tell me about a time when you were forced to make an unpopular decision?

Ans:

Not every decision is popular. In fact, almost every decision is bound to make someone unhappy at some point. The key is to demonstrate how it impacted others positively and why you chose it.

[View All Answers](#)

Question - 34:

What do you aspire to be?

Ans:

Discuss your aspirations for the near, immediate and long term. You want to show them you are thinking of making an impact now as well as the future.

[View All Answers](#)

Question - 35:

Where do you see yourself in 5 years with your career?

Ans:

Be sure to paint a clear picture of your career vision that demonstrates your aspirations and goals that are realistic. This could emphasize increased responsibility, the ability to manage people and so forth

[View All Answers](#)

Question - 36:

Why do you want to work in this industry As Electro-Mechanical Technician (E-M Technician)?

Ans:

Make sure you research the industry first. Then find at least 3 core things about that industry that you're passionate about (for example: how their solutions impact clients, their culture, the leadership, etc)

[View All Answers](#)

**Question - 37:**

What are your lifelong dreams?

Ans:

If your dreams don't relate to the job closely, make sure you highlight aspects of the job that will help develop the skills that will help you with your dreams. Ideally, you want your dreams to relate strongly to the career path you're interviewing for though.

[View All Answers](#)

Question - 38:

What does "collaboration with teammates" mean to you?

Ans:

Drinking at the water cooler together is not the best example. Think of how you can collaborate with teammates to generate new ideas, to create initiatives to impact the business' success for the better (specifically in the department that you're applying for). For example, if you're applying to marketing, collaboration could mean discussing new ways of social media advertising to reach an audience of over a million people to strengthen the brand awareness of the company.

[View All Answers](#)

Question - 39:

What type of extracurricular activities are you a part of?

Ans:

Discuss the clubs / activities you were in, share a personal story about why you enjoyed it and then describe how it's helped shape you to be who you are today. For example, I enjoyed rock climbing because it taught me the value of practicing hard at a sport to become skilled in it. I bring this same diligence to my work approach today as well.

[View All Answers](#)

Question - 40:

Describe your academic achievements?

Ans:

Think of a time where you really stood out and shined within college. It could be a leadership role in a project, it could be your great grades that demonstrate your intelligence and discipline, it could be the fact that you double majored. Where have you shined?

[View All Answers](#)

Question - 41:

How important is the vision of the company to you?

Ans:

It should be very important if you want a long standing career. Remember, you're investing your time, energy and earnings potential into a company so you want to make sure it's a sustainably successful company that will grow with you over the long haul.

[View All Answers](#)

Question - 42:

What differentiates this company from other competitors?

Ans:

Be positive and nice about their competitors but also discuss how they are better than them and why they are the best choice for the customer. For example: "Company XYZ has a good product, but I truly believe your company has a 3-5 year vision for your customer that aligns to their business needs."

[View All Answers](#)

Question - 43:

Describe a time where you've failed and bounced back?

Ans:

Share a story to describe this. For example: "I accidentally made the mistake of telling a customer I could deliver on a solution set on a certain date and then later found out our business partner couldn't do it on that time. I learned that I shouldn't rush into important decisions and promises like this and that I should always check with my counterparts first before committing to a statement of work."

[View All Answers](#)

Question - 44:

How do you act when you encounter competition?

Ans:

This question is designed to see if you can rise the occasion. You want to discuss how you are the type to battle competition strongly and then you need to cite an example if possible of your past work experience where you were able to do so.

[View All Answers](#)

Question - 45:

How good are you at problem solving?

Ans:

Describe the problem first and then discuss how you were able to fix it.

[View All Answers](#)

Question - 46:

If I talked to your three biggest fans, who would they be and why?

Ans:

If you can reference three professionals with executive titles (CXO, VP, Director, Manager), that carries a lot of weight. Make sure you highlight how you've helped them achieve their biggest objectives and how that's made them your fan.

[View All Answers](#)

Question - 47:

What were the responsibilities of your last position As Electro-Mechanical Technician (E-M Technician)?

Ans:

If you want to show your ambition, you can discuss how you haven't reached all of your goals yet and in that sense aren't satisfied. However, if you want to discuss satisfaction from your job discuss an experience in which you achieved something.

[View All Answers](#)

Question - 48:

What do you look for in terms of culture -- structured or entrepreneurial?

Ans:

A good answer is to discuss the importance of having both elements in a company As Electro-Mechanical Technician (E-M Technician). Structure is good to maintain a focus on priorities and making sure people are productive but having an entrepreneurial spirit can help cultivate new ideas that can truly help the company.

[View All Answers](#)

Question - 49:

What techniques and tools do you use to keep yourself organized As Electro-Mechanical Technician (E-M Technician)?

Ans:

Utilizing a calendar, having a notebook with your "to do" list, focusing on your top 3 priorities each and every day, utilizing a systematic way of storing documents on your computer (like box.net)

[View All Answers](#)

Question - 50:

Who was your favorite manager and why?

Ans:

Describe the attributes you liked about your favorite manager, typically attributes discussed are: Great at coaching, inspiring, motivating, empowering, trusting, delegating, leading, etc.

[View All Answers](#)

Question - 51:

What do you like to do?

Ans:

Discuss your passions As Electro-Mechanical Technician (E-M Technician). Ideally if it's work related that's fantastic! If not, talk about your academic / extracurricular passions and WHY you enjoy them. For example: I love playing sports because of the team work aspect - it's fun winning together! (This example shows you're a team player)

[View All Answers](#)

Question - 52:

What is your personal mission statement?

Ans:

Is it to conquer the world? Is it to become a CEO? Is it to give back to the community? Is it to inspire others? Define your statement by stating a clear vision of how you want to make an impact on the world with your work.

[View All Answers](#)

Question - 53:

What do you do in your spare time?

Ans:

If you want to show your fun side, discuss your extracurricular activities. If you want to show your ambition, discuss the work / school projects you do in your spare time.

[View All Answers](#)

Question - 54:

If I were to give you this salary you requested but let you write your job description for the next year, what would it say?

Ans:

It should say the same thing - after all - if you think this salary is fair then it should suit the responsibilities!

[View All Answers](#)

Question - 55:

Do you work better on a team, with just one partner, or alone?

Ans:

Ideally you can handle all three well, but you may have a personal preference for one or a few. The key is to make sure you understand what the job is looking for and to pair your answer with that (assuming it's true)

[View All Answers](#)

Question - 56:

How does your present position differ from past ones?

Ans:

Describe the difference with regards to responsibilities, culture, team, career opportunity, and the work itself.

[View All Answers](#)

Question - 57:

What have you done to prepare yourself to be a supervisor?

Ans:

1. Learn from current supervisors (best practices)
2. Mentor others
3. Be exceptionally good at your current job so that it builds your credibility
4. Have a high emotional IQ

[View All Answers](#)

Question - 58:

What is the most important quality a supervisor should have?

Ans:

The ability to inspire / lead a team towards one common vision.

[View All Answers](#)

Question - 59:

Tell me about a decision you made recently and how you reached it As Electro-Mechanical Technician (E-M Technician)?

Ans:

The key is to show that you put a lot of thought (weighing out the pros and cons) but were able to be decisive. Be sure to explain your logic in arriving at the decision.

[View All Answers](#)

Question - 60:

How much time do you need to join the organization As Electro-Mechanical Technician (E-M Technician)?

Ans:

You should be able to join it right away, barring plans you've already made (family travel, vacation, other obligations). The key is to simply be open in communication of what's already committed on your schedule. Most companies are accommodating. If they are not, weight the importance of joining that company vs. your plans.

[View All Answers](#)

Question - 61:

Are you aggressive?

Ans:

If you are, describe it through a story / experience that you had. If you aren't, then explain why you're not. If the job role asks for you to be aggressive/not aggressive and you're the opposite of it, explain how you would develop that characteristic.

[View All Answers](#)

Question - 62:

In your last job what kinds of pressure did you encounter and how did you react As Electro-Mechanical Technician (E-M Technician)?

Ans:

Do not show your fear or uneasiness in handling pressure. Everyone likes to have a worker who can handle pressure calmly and with a clear train of thought. Show how you would logically come to a conclusion in a pressure filled situation.

[View All Answers](#)

Question - 63:

How would your references describe you?

Ans:

Think of three major characteristics that demonstrate your best qualities related to work and then have quick stories to describe why.
