## SunOne Interview Questions And Answers Guide.

### Question - 1:

What is swing and jsp. Where we use swings and jsp?

#### Ans:

Java Swing is technology which we are using to design desktop application.

JSP is a server side technology called as Java Server Pages. when we need to design a application in client - server architecture where client is desktop application then we will go for swings in java, and we can use jsp on serverside.

JSP is also used to represent the view as HTML on browser in MVC architecture.
