Operator Camera Head Interview Questions And Answers Guide.

Question - 1:

Can you tell me a little about yourself?

Ans:

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Operator Camera Head. Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

Question - 4:

What experience do you have As Operator Camera Head?

Ans:

The employer would want to know that not only you can do the job but you can make the difference and bring significant contribution - Simple as that. No doubt that this is your time to perform and present yourself - You have to introduce/sell yourself to the interviewer. Prepare your answer based on your qualification, professional experience and what you've already achieved in your previous jobs. This is your time to express why you think that your professional abilities fit into the job and its requirements.

Question - 5:

How many tennis balls can you fit into a limousine? 1,000? 10,000? 100,000? Seriously?

Ans:

Well, seriously, you might get asked brainteaser questions like these, especially in quantitative jobs. But remember that the interviewer doesn't necessarily want an

exact number-he wants to make sure that you understand what's being asked of you, and that you can set into motion a systematic and logical way to respond. So, just take a deep breath, and start thinking through the math. (Yes, it's OK to ask for a pen and paper!)

Question - 6:

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

Ans:

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

Question - 7:

What do you like to do outside of work?

Ans:

Interviewers ask personal questions in an interview to "see if candidates will fit in with the culture [and] give them the opportunity to open up and display their personality, too.". In other words, if someone asks about your hobbies outside of work, it's totally OK to open up and share what really makes you tick. (Do keep it semi-professional, though: Saying you like to have a few beers at the local hot spot on Saturday night is fine. Telling them that Monday is usually a rough day for you because you're always hungover is not.)

Question - 8:

What's a time you disagreed with a decision that was made at work?

Ans:

Everyone disagrees with the boss from time to time, but in asking this interview question As Operator Camera Head, hiring managers want to know that you can do so in a productive, professional way. "You don't want to tell the story about the time when you disagreed but your boss was being a jerk and you just gave in to keep the peace. And you don't want to tell the one where you realized you were wrong.". Tell the one where your actions made a positive difference on the outcome of the situation, whether it was a work-related outcome or a more effective and productive working relationship.

Question - 9:

Why are manhole covers round?

Ans:

This is a classic brainteaser, which was reportedly first asked by a Microsoft interviewer. Here's how to ""solve"" this brainteaser (remember to speak and reason out loud while solving this brainteaser): Why are manhole covers round? Could there be a structural reason? Why aren't manhole covers square? It would make it harder to fit with a cover. You'd have to rotate it exactly the right way.

The pipes below are also round, so fitting them might be easier, as might be making them. So many manhole covers are round because they don't need to be rotated. There are no corners to deal with. Also, a round manhole cover won't fall into a hole because it was rotated the wrong way, so it's safer. Looking at this, it seems corners are a problem. You can't cut yourself on a round manhole cover. And because it's round, it can be more easily transported. One person can roll it.

Have you got any questions?

Ans:

This is your final opportunity to persuade the interviewer that you are the right candidate for the job. Now is not the time to ask questions about holidays, pay or pensions - all these things can be asked later when you get an offer of employment. Now is the time to ask about any reservations that the interviewer may have about your suitability for the role. You will then give yourself one last chance to persuade the interviewer that you are the right candidate for the job.

Example Thank you. I think we have covered everything. Before we finish the interview I would like to take the opportunity to ask if you have any reservations about my suitability for this role?

How do you plan to go by an example for your subordinates?

Ans:

Sticking to the rules by yourself, working hard and not mind participating on basic tasks is a good answer.

[View All Answers](#)

Question - 17:

How much do you expect to get paid As Operator Camera Head?

Ans:

For this be prepared and research salary to find out what similar positions are paying in your area before you go to the interview. Try to find this information out before giving your salary expectations. You can and should provide a range instead of an exact number. But again, don't say any numbers you're not comfortable with because if the employer offers you a salary at the lowest end of your range, you don't have much to negotiate with when it comes to getting a higher salary.

[View All Answers](#)

Question - 18:

How would you observe the level of motivation of your subordinates?

Ans:

Choosing the right metrics and comparing productivity of everyone on daily basis is a good answer, doesn't matter in which company you apply for a supervisory role.

[View All Answers](#)

Question - 19:

What are your salary expectations As Operator Camera Head?

Ans:

This question is like a loaded gun, tricky and dangerous if you're not sure what you are doing. It's not uncommon for people to end up talking salary before really selling their skills, but knowledge is power as this is a negotiation after all. Again, this is an area where doing your research will be helpful as you will have an understanding of average salary.

One approach is asking the interviewer about the salary range, but to avoid the question entirely, you can respond that money isn't a key factor and you're goal is to advance in your career. However, if you have a minimum figure in mind and you believe you're able to get it, you may find it worth trying.

Question - 20:

What do you think we could do better or differently?

Ans:

This is a common one at startups. Hiring managers want to know that you not only have some background on the company, but that you're able to think critically about it and come to the table with new ideas. So, come with new ideas! What new features would you love to see? How could the company increase conversions? How could customer service be improved? You don't need to have the company's four-year strategy figured out, but do share your thoughts, and more importantly, show how your interests and expertise would lend themselves to the job.

What is your greatest weakness As Operator Camera Head? What are you doing to improve it?

However, that has helped me get promoted or even asked to help in times of need in other department. I have been know as the "go to person" when help is needed.

What type of work environment do you prefer?

How do you evaluate your ability to handle conflict?

Ans:

I pride myself on being a good problem solver. I believe that it is important to get to and address the root of the issue, in a respectable manner.

[View All Answers](#)

Question - 25:

Do you consider yourself successful?

Ans:

You should always answer yes to this question. Briefly explain why without going on and on. If you communicate that you're more successful than you really are you may come off as arrogant or unrealistic. A goof explanation is that you have set professional goals and that you have met some of these goals and are on track to meet more in the near future.

[View All Answers](#)

Question - 26:

Why do you want to work for this company?

Ans:

Again be honest. The interviewer will be able to sense very quickly if you're be disingenuous. Your answer should be base on your person reasons, career aspirations as well as research you've performed on the company. The most important thing you should do is make sure to relate your answer to your long-term career goals.

[View All Answers](#)

Question - 27:

What is your dream job?

Ans:

There is almost no good answer to this question, so don't be specific. If you tell the interviewer that the job you're applying for with his/her company is the perfect job you may loose credibility if you don't sound believable (which you probably won't if you're not telling the truth.) If you give the interviewer some other job the interviewer may get concerned that you'll get dissatisfied with the position if you're hired. Again, don't be specific. A good response could be, "A job where my work ethic and abilities are recognized and I can make a meaningful difference to the organization."
