Windows General Interview Questions And Answers Guide.

Question - 1:

In 2 domain controllers, One has some 3 roles other has 2 roles, Domain controller which has 3 roles went down, will the users can able to login who are created in that domain controller?

Ans:

Yes, by default that users can able to login as this record is replicated to another DCs.

Since pdc emulator role is handling the Password and lockout policies, if the account is locked out, that user may not be able to login if the down DC handling this role.
