# Industry Fire Inspector Interview Questions And Answers Guide.

## Question - 1:

Can you explain why you changed career paths As Industry Fire Inspector?

### Ans:

Don't be thrown off by this question-just take a deep breath and explain to the hiring manager why you've made the career decisions As Industry Fire Inspector you have. More importantly, give a few examples of how your past experience is transferable to the new role. This doesn't have to be a direct connection; in fact, it's often more impressive when a candidate can make seemingly irrelevant experience seem very relevant to the role.

## Question - 2:

Can you tell me a little about yourself?

### Ans:

This question seems simple, so many people fail to prepare for it, but it's crucial. Here's the deal: Don't give your complete employment (or personal) history As Industry Fire Inspector. Instead give a pitch-one that's concise and compelling and that shows exactly why you're the right fit for the job. Start off with the 2-3 specific accomplishments or experiences that you most want the interviewer to know about, then wrap up talking about how that prior experience has positioned you for this specific role.

## Question - 6:

Tell me about yourself?

### Ans:

There are some questions that your potential employer aren't allowed to ask (but trust me, they probably want to). For instance, they shouldn't really ask about your family or how far away you live from your potential place of employment. If you can find a way to answer these questions anyway (with the answers they want to

hear), that will give them a little added info to help them make the (right) decision!

### Question - 8:

Are You a 'People' Person?

#### Ans:

Although it may be phrased a little differently, the gist of this question is clear:

Do you like being around people? If you don't, being a medical assistant isn't a good fit for you. After all, you'll be working directly with patients throughout the day. It helps a lot if you sincerely like interacting with them. While answering this question, make sure to mention that you like helping people too. ### Question - 10:

How many tennis balls can you fit into a limousine? 1,000? 10,000? 100,000? Seriously?

#### Ans:

Well, seriously, you might get asked brainteaser questions like these, especially in quantitative jobs. But remember that the interviewer doesn't necessarily want an exact number-he wants to make sure that you understand what's being asked of you, and that you can set into motion a systematic and logical way to respond. So, just take a deep breath, and start thinking through the math. (Yes, it's OK to ask for a pen and paper!)

### Question - 11:

How well do you know this industry?

Two things businesses need to pay attention to in their industries are what their competition is doing and the customers. You may not always agree with your competitors but it is important to be aware of what changes they are making. Very well. I have been in the industry for over 6 years.

### Question - 12:

How would you estimate the weight of the Chrysler building?

#### Ans:

This is a process guesstimate where the interviewer wants to know if you know what to ask. First, you would find out the dimensions of the building (height, weight, depth). This will allow you to determine the volume of the building. Does it taper at the top? (Yes.) Then, you need to estimate the composition of the Chrysler building. Is it mostly steel? Concrete? How much would those components weigh per square inch? Remember the extra step: find out whether you're considering the building totally empty or with office furniture, people, etc. If you're including the contents, you might have to add 20 percent or so to the building's weight.

### Question - 13:

If you look at a clock and the time is 3:15, what's the angle between the hour and the minute hands?

#### Ans:

Usually, if the answer to a brainteaser seems too easy, chances are the answer's wrong. And in this case, the answer is not zero degrees. The hour hand, remember, moves as well. That is, in addition to the minute hand. And so, at 3:15, the hour hand and the minute hand are not on top of each other. In fact, the hour hand has moved a quarter of the way between the 3 and 4. This means it's moved a quarter of 30 degrees (360 degrees divided by 12 equals 30). So the answer, to be exact, is seven and a half degrees (30 divided by four).

**Question - 15:**

What do you consider to be your weaknesses?

**Ans:**

What your interviewer is really trying to do with this question-beyond identifying any major red flags-is to gauge your self-awareness and honesty. So, "I can't meet a deadline to save my life As Industry Fire Inspector" is not an option-but neither is "Nothing! I'm perfect!" Strike a balance by thinking of something that you struggle with but that you're working to improve. For example, maybe you've never been strong at public speaking, but you've recently volunteered to run meetings to help you be more comfortable when addressing a crowd.

[View All Answers](#)

**Question - 16:**

What motivates you to succeed?

**Ans:**

Your interviewer will likely want to know the reasons why you will remain motivated to do your best during your employment with the company As Industry Fire Inspector. Perhaps you are interested in being challenged, but you may also have interest in being recognized for your hard work in the form of the number of sales you can attain. A great example answer for this question is "I always do my best in everything, including my job. I take pride in my success, and I also want the company for which I work to be successful. Being affiliated with a company that is known for its excellence is very important to me."

[View All Answers](#)

**Question - 17:**

Why should we select you not others?

**Ans:**

Here you need to give strong reasons to your interviewer to select you not others. Sell yourself to your interviewer in interview in every possible best way. I am a hard worker and a fast learner, and though I may not have all of the qualifications that you need, I know I can learn the job and do it well."

[View All Answers](#)

**Question - 18:**

Why were you fired?

**Ans:**

OK, if you get the admittedly much tougher follow-up question as to why you were let go (and the truth isn't exactly pretty), your best bet is to be honest (the job-seeking world is small, after all). But it doesn't have to be a deal-breaker. Share how you've grown and how you approach your job and life now as a result. If you can position the learning experience as an advantage for this next job, even better.
